DEDICATE WLS TRANSMITTER SITE

Ground Broken On Lauffer Farm In The Town of Frankfort

Several hundred persons attended the dedication program of the new WLS transmitter site on the Wm. Lauffer farm in Frankfort township at the corner of Kean Ave. and 183d street, Tuesday noon. Check Stafford, John Baker and other WLS officials and a number of artists attended. The program was broadcast from the new station site through mobile units, one of which was stationed at the Larson garage on Lincoln highway and Route 45 north of Frankfort. During the broadcast it was stated that the new transmitter will be one of the highest in the world. The transmitter equipment will be the 4CA kind. Transmitter towers will be 560 feet high, equivalent to a building 60 stories in height. Two electric lines will be installed and so arranged that in case one line goes out of commission the other one can be cut in. But to safeguard against the possibility that both lines go out of service, a generating plant will also be installed on the transmitter site so it can be used in case of emergency. In addition to the electric lines there will be a private telephone line run out from Chicago hooked up with the studios.

At the dedication Tuesday noon trees were planted in honor of the 14th anniversary of the founding of WLS.

Dr. John Holland made a brief address in which he stated that he was speaking from a point within a few miles of Tinley Park where the M. E. church was one of his first charges when he first entered the ministry. He pointed out that where at that time he could only speak to a few hundred people he would be able to reach five million listeners with the new transmitter in operation.

School children from the rural school near the new site also attended these exercises. A number of WLS artists were on the scene including the Arkansas Woodchopper. He sang a number of selections.

A well is being drilled at the present time on the new site. A fully equipped station will also be erected to house transmitter operators. The new quarters will be so arranged that the operators may remain on the job regardless of impassable roads during heavy snow blizzards as was the case last week. WLS purchased 40 acres from Wm. Lauffer a few months ago for their new transmitter location. Thus Will County will be honored by having the world's largest and most elaborate transmitter station located in its midst. The new site is only a few miles northeast of Mokena.

Frankfort M. E. To Hold Sunrise Prayer Service

An Easter morning prayer service will be held in the Frankfort M. E. church at 6:30 o'clock Sunday morning. His service will be conducted by the Epworth League. Following the service a breakfast will be served free to all who attend.

Invitations have been issued to all the members and friends of the church to come and worship with them. Come and worship with the young people and get the Easter spirit.

Easter worship service will be held at 9:30 a. m. Special music by the choir. Easter Sunday School service at 10:30 a. m. All children attending Sunday School and all teachers will receive an Easter gift.

Heavy Vote Polled In Primary Tuesday

In Frankfort township 725 Republican votes were cast in two precincts and 272 Democratic votes. In precinct 1 Frankfort village and Lincoln Estates 439 Republican votes were cast and 163 Democratic. The local contest for Democratic committeeman stirred up much interest. Ernest H. Bennett present committeeman was re-elected, receiving 90 votes, while his opponent Ora R. Andrews received 60 votes.

In Mokena, second precinct, 286 Republican votes were cast and 109 Democratic. There was a local contest and Robert Maue, Democratic, and Elmer Cooper, Republican, committeeman, were re-elected without opposition.

FRANKFORT VOTE IN FAVOR OF SCHOOL GYM

Frankfort has felt the need of a school gym for a long time and the matter of building a new gym to the present public school and floating a bond issue with which to pay for the gym was put up to a vote of the district last Saturday and carried. The vote was as follows:

For building a new gym 178 votes; against, 37 votes. For floating a \$16,000 bond issue to pay for the construction of the new addition the vote stood 170 for and 36 against.

Construction work on the new gym is to start about June 1st. Ernest Pfeifer was elected school director at the same election without opposition.

All Mokena School Teachers Are Re-Engaged

All the present teachers of the Mokena public school have been re-engaged for the next school year, by the School Board. The teachers are: Principal: Mr. Gerald Dunn. Teachers: Mrs. Elizabeth Cappel, Mrs. Eleanor Ferguson, Miss Mary Koors and Miss Sarah Snure.

The Spring vacation of the Mokena public school will include today, Good Friday, Monday and Tuesday of next week with school opening again on Wednesday morning April 27.

SHOVELING SNOW PROVES FATAL TO EX-SERVICE MAN

The heavy snow storm of Friday afternoon caused the death of Samuel Dykstra of Tinley Park. His car had become stalled on Oak Park avenue. He had attempted to shovel a way out but did not succeed. He walked home thru the heavy snow. This exertion brought on a sudden heart attack. He had hardly arrived home when he died.

He was born in Massachusetts, June 14, 1895 of Holland parents. He has lived in Roseland, Blue Island and for the past three years has resided in Tinley Park. He was an electrical welder by trade.

Surviving are his widow, Rose, four sons, Frank, Robert, Carl and William, and one daughter June. Military services were held at the Hirsch Brothers funeral chapel in Tinley Park Tuesday afternoon at 2 p. m., by the Tinley Park American Legion Post. The funeral rites were colorful and impressive. The Guards of Honor were comrades George Rowden, Herman Freitag, Adolph Ceithaml, Frank Baldwin, Walter Mager, Charles Wolf, Chas. Wallin and Boyd Carr.

Mr. Dykstra served seven years in the army as a teamster on the Mexican border under General Pershing, also in the World War.

Interment was held in the Tinley Park Cemetery.

Daylight Savings Time To Begin Sat., April 23rd

Beginning Sunday morning, April 24th all the towns in this section will go on daylight saving time which will continue thru to the last Sunday in September. Don't forget to set your time pieces ahead one hour when you retire Saturday night April 23rd. Do not confuse the dates. New time does not go into effect this Sunday, but a week from Sunday.

Light Vote Cast In Mokena School Election

The Mokena school director election held last Saturday was a very quiet affair. There was no opposition and Elmer L. Cooper was re-elected school director with 62 votes.

Tinley Markets Stores Close on Good Friday Noon

Tinley Park meat markets and stores will observe Good Friday by closing at noon and remaining closed for the balance of the day.

Freak Blizzard Ties Up Road Many Cars Stalled

The freak blizzard of last Friday tied up all traffic on all the paved highways in this section until Saturday morning. Some of the side roads were not opened until Sunday afternoon. Many cars and trucks were stalled in the deep snow drifts and were left standing until the snow plows came thru.

Charles Liess had quite a number of autoists at his place until the roads were opened. Farmers along the paved roads kept many of the stranded autoists over night.

Tinley Park was almost entirely isolated. Snow banks 12 feet high were encountered at Bachelors Grove north of Tinley Park. Pictures of the big drifts appeared in the Chicago papers.

The heavy snow quickly melted when the sun came out Saturday and by Tuesday very little of the snow could be seen.

The Rock Island interlocking plant at Mokena was hampered by the snow and a gang of men was kept busy getting it back into operation.

During the storm Friday night an auto became stalled on the crossing of the Rock Island at Gougar's crossing west of New Lenox. The car was pushed off the crossing before any trains came in sight. Messages, however, had been given to some of the engineers to look out for a stalled car on the crossing in question.

Students attending the Joliet high school from Mokena and who drive back and forth daily, were obliged to take the train Friday night for home.

Orland Voters Switch Votes On Commit'man Fight

A hot precinct committeeman fight on the Democratic ticket and no opposition in the Republican camp, caused many Republican voters to switch over to the Democratic side to help one or the other of the two candidates Walter Smith and Andrew Ludwig.

A third precinct was added to Orland recently and the voters in it voted in their new voting place Tuesday. The new precinct extends south of 159th street.

The returns from the precincts gave a total of 279 votes to Andrew Ludwig present committeeman and 175 to Walter Smith.

St. Peter's Church Frankfort To Present Cantata

The St. Peter's Evangelical and Reformed church at Frankfort will be the scene of a beautiful Easter Cantata-Pageant entitled "Palms of Victory" on Sunday, April 17 at 7:30 p. m.

For the past several weeks, Mr. and Mrs. Wesley Hollstein have been instructing a group of young people who will help the regular choir in their offering for that evening. The cast is composed of forty children and adults.

This is said to be a very impressive service and everybody is invited to attend.

New Lenox PTA Group Will Meet

The Homemaking group of the New Lenox PTA will hold a special business meeting in the school on Wednesday afternoon, April 20. All members are urged to attend this where plans will be laid for coming activities.

The New Lenox Parent-Teacher Association will have its regular monthly meeting in the school auditorium on April 22 at 7:30 p. m. Besides the usual business session the Homemaking group will conduct a special program consisting of an exhibit of hand and home crafts and a style show. There will be enjoyable music for all.

FIRE DESTROYS PALOS PARK COAL YARD

Fire of undetermined origin broke out in the Lynk coal yard in Palos Park about one o'clock Wednesday morning. A neighbor saw the flames and gave the alarm. The Orland Park Fire Department was called but the flames had made such rapid headway that the property was beyond saving. The coal sheds with ten ton of coal and a truck were destroyed by the fire.

Many Upsets In Will County Primary Election

In the primary election Tuesday the following candidates were nominated on the Republican ticket:

For sheriff, Joseph James O'Neill; For Probate Judge, Fred Adams; For Probate Clerk, Donald C. Lang; For Treasurer, James Bell; For County Clerk, Joseph Hartley; For County Supt. Schools, Louis Bottino and for County Judge, Glen L. Cowing.

On the Democratic ticket the successful candidates were: For Sheriff, Emmett McGuire; For Probate Judge, Wm. E. Austin; For Probate Clerk, John R. Barney; For Treasurer, Albert Kinson; For County Clerk, Henry Koerner; For County Supt. of Schools, Earl Francis Booth and for County Judge, George Blatt, Sr.

In the legislative race, Lottie Holman O'Neill and Warren Wood were re-nominated. On the Democratic ticket, Joseph Sam Perry was re-nominated.

The total votes received by each candidate are as follows:

Republican—For Sheriff
Joseph James O'Neill 6,988
Ralph Newkirk 3,397
Oliver Flint 2,524
Joseph L. Loeffler 1,068
Wilbert Sigansen 724
Howard Sontag 696
Geo. T. Gardner 267
Ernest W. Balgeman 312
For Treasurer
James C. Bell 7,281
Christian B. Eskilson 3,583
Raymond J. Smith 2,819
J. Arthur Baskerville 1,007

For School Superintendent
Louis F. Bottino 4,928
Walter Grant Smith 4,484
Frank Oneal 2,771
Gideon Blough 2,761

For Probate Judge
Fred R. Adams 4,285
J. Hinton Massey 3,906
John L. Walker 3,768
Herbert P. Folkers 2,953

For County Clerk
Joseph H. Hartley 6,022
Harold Morris 2,677
Clifford L. Hammond 2,773
Silas J. Johnson 2,063
John M. Jenco 1,295

For Probate Clerk
Donald C. Lang 10,456
Wm. D. Hartley 3,300
Glen L. Cowing, Joliet Attorney, and son of the late Judge Geo. Cowing was without opposition in the campaign for the nomination for county judge. He polled a vote of 13,087.

Democratic Ticket—For Sheriff
Emmett McGuire 9,897
Gordon S. Breen 6,859
Joseph Krall 1,846
Maurice Gallagher 936
Robert J. Breen 596

For Treasurer
Albert E. Kinson 4,598
Ralph G. Yonke 3,973
Anton Nemanich 2,294
Dominic A. Romano 3,642
Joseph J. Kane 1,971
Patrick D. Fahey 1,460
Abe Frank 1,086
Robert E. Gray 607

For Probate Judge
William E. Austin 10,475
J. Harold Downey 7,420

For Supt. of Schools
Earl Francis Booth 9,647
Edward F. Worst 7,651

For County Clerk
Henry Koerner 7,746
Owen J. McCarthy 6,723
Donald DeMarco 1,445

For Probate Clerk
John R. Barney 7,706
William Fitzgerald 6,234
Theodore F. Wilhelmi 2,715
Alex J. Fier 1,170
Edward J. Trainor 1,185

Legislative Returns
In the legislative race Warran Wood led the field with 35,289 votes and Lottie Holman O'Neill was second with 28,223 votes. These votes are for Will and Dupage counties combined on the Republican ticket.

Wm. R. McCabe received 19,492 votes in the two counties.

On the Democratic side the fight was between Miss Ruth Brannon of Manhattan and Joseph Sam Perry of DuPage present incumbent. The returns for the two counties totaled as follows: Miss Brannon 20,271; Perry, 24,703.

Heavy Primary Vote Polled At New Lenox

A heavy vote was polled at New Lenox at the primary election Tuesday. The results for United States Senator, county and legislative officials on the Democratic ticket was as follows in precinct 1: For United States Senator, Michael L. Igoe, 42; 2nd precinct, 54; first for Scott W. Lucas, 76; 2nd, 58; For State Senator, first, James R. Shaffer, 36; 2nd, 37; first, Albert E. Rosier, 45; 2nd, 36; James H. Donahue, first, 30; 2nd, 34. For State Representative, first, Joseph T. O'Neil, 48; 2nd, 72; first, Ruth Brannon, 147; 2nd, 219; first, Joseph Sam Perry, 124; 2nd, 60. For County Judge, George N. Blatt, Sr., first precinct, 119; 2nd, 117; For county clerk, first, Henry Koerner, 93; 2nd, 103; first, Owen J. McCarthy, 30; 2nd, 23; For Probate Judge, first, William E. Austin, 80; 2nd, 71; first, J. Harold Downey, 32; 2nd, 50; Clerk Probate court, first, John R. Barney, 55; 2nd, 35; Wm. F. Fitzgerald, first, 35; 2nd, 44. For county treasurer, first, Ralph Yonke, 52; 2nd, 27; Albert E. Kinson, first, 37; 2nd, 36. For sheriff, Gordon S. Breen, first, 58; 2nd, 46; first, Emmett McGuire, 52; 2nd, 43. County Supt. Schools, first, Earl Francis Booth, 61; 2nd, 78; first, Edward F. Worst, 57; 2nd, 46. Precinct committeeman, first precinct, Jack Embling, 103; John J. Sullivan, 40.

The name of John J. Sullivan also appeared on the Democratic ballot for United States Senator. First precinct gave him 7 votes, the 2nd, 12.

On the Republican ballot the results were: For United States Senator, Richard J. Lyons, first precinct, 107; 2nd, 154; For Rep. in congress, Chauncey W. Reed, first, 119; 2nd, 176. For state senator, R. J. Barr, first 120; 2nd, 192. For state representative, first, Warren L. Wood, 235 1/2; 2nd, 321; Lottie O'Neill, first, 114; 2nd, 156; Wm. R. McCabe, first, 79 1/2; 2nd, 129.

For county judge, Glen L. Cowing, first, 135; 2nd, 180. For county clerk, first Joseph H. Hartley, 39; 2nd, 72; first, Harold Morris, 21; 2nd, 30; first, Silas J. Johnson, 29; 2nd, 22; first John M. Jenco, 7; 2nd, 14; Clifford L. Hammond, first, 41; 2nd, 54. For probate judge, first, John L. Walker, 40; 2nd, 31; first, Herbert P. Folkers, 51; 2nd, 55; J. Hinton Massey, first, 21; 2nd, 83; Fred R. Adams, first, 34; 2nd, 27. For probate clerk, first, Lonaal C. Lang, 104; 2nd, 143; William Duncan Hartley, first, 20; 2nd, 35.

For county treasurer, first, Christian B. Eskilson, 30; 2nd, 54; James C. Bell, first, 78; 2nd, 94; Raymond J. Smith, first, 20; 2nd, 39. For sheriff, first, Joseph James O'Neill, 60; 2nd, 52; Oliver Flint, first, 14; 2nd, 42; Ralph H. Newkirk, first, 33; 2nd, 87. For County Supt. of Schools, first, Gideon L. Blough, 23; 2nd, 34; Louis F. Bottino, first, 30; 2nd, 37; Frank E. O'Neal, first, 31; 2nd, 29; Walter Grant Smith, first, 56; 2nd, 88. For precinct committeeman, second precinct, Alfred Emiley, 176.

Coming Events

TINLEY MAYOR ORDERS SLOT MACHINES OUT

Several weeks ago slot machines made their appearance in Tinley Park after an absence of six months. Mayor Francis A. Harper promptly took action against these machines and ordered police chief C. A. Steinhagen to notify all slot machine operators to take out the machines which was promptly done. Mayor Harper stated he did not want Tinley Park to figure in any midnight raids on slot machines as has occurred in other towns in Cook county.

Special Features At Auction

The semi-monthly coupon auction sale of Cooper & Hostert and K. Sippel Son, in Mokena, will be held this coming Saturday night and a special surprise feature is in store. A special prize that will excite much interest is to be presented that night. Be sure to attend the sale to be held in the Cooper & Hostert Garage at 8:45 p. m.

Mokena Band To Give Concert

The Mokena school band will hold their annual spring band concert on May 6th. More details later.

Tinley Board To Meet Last Monday In Each Month

The Tinley Park village board has changed their meeting nights from twice a month to once a month. The monthly meetings are to be held from henceforth the last Monday night of each month. The next meeting night of the board will be next Monday night, April 25th.

Walther League To Stage Play In Tinley Park

The St. John Walther League of Cooper's Grove will present a three-act comedy, "Bound to Marry" in the Tinley Park school auditorium April 27. The public is cordially invited to attend.

Mokena M.W.A. Dance April 22

The Mokena M. W. A. and R. N. A. will sponsor a dance in the Hatch Hall on Friday night April 22. Everyone invited.

Mokena Man Starts McConnon Products Route

George E. Stermer of Mokena has taken over a local route covering parts of Will and Cook counties for the McConnon & Co., products. This concern is located in Winona, Minn., and is widely known. Mr. Stermer handles a variety of this company's products and will greatly appreciate your patronage.

FOTO-FEATURE

NIAS: ISLE OF GOLD

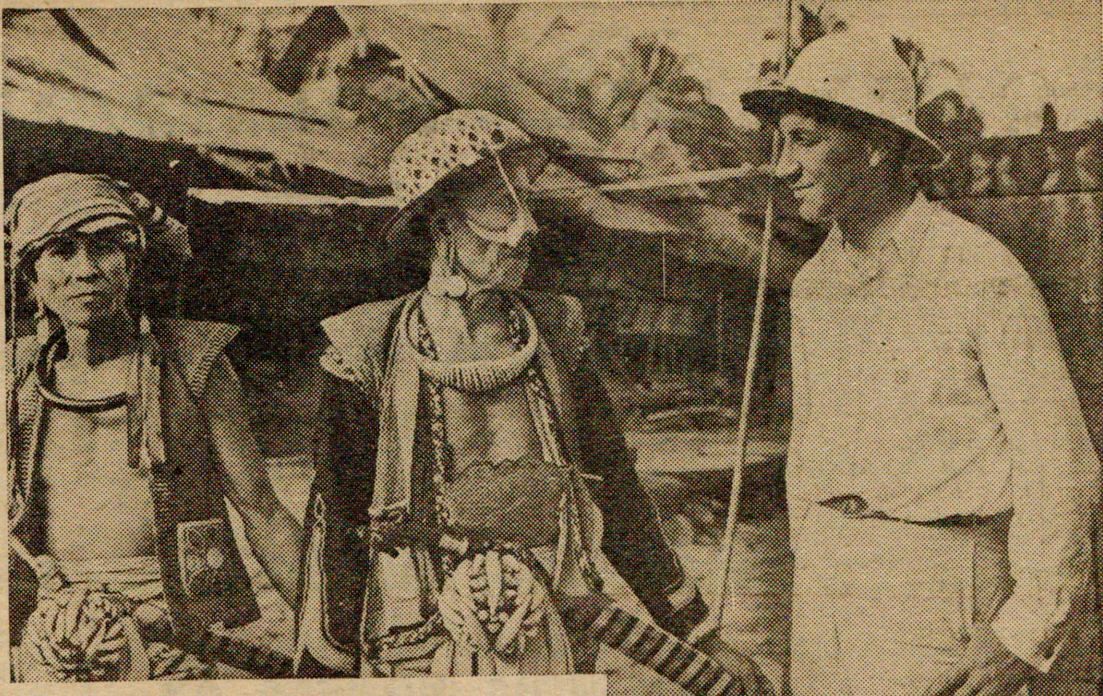

Eighty miles off the west coast of Sumatra lies Nias, an equatorial island whose population is about 200,000, whose size compares to that of Delaware. Nias is unique for several reasons, presented by FOTO-FEATURE with pictures taken last winter by Deane Dickason, noted explorer.

Egyptian and Phoenician blood courses strangely through the veins of these people, who were visited by expeditions from the West hundreds of years ago. But originally they came from northern Sumatra.

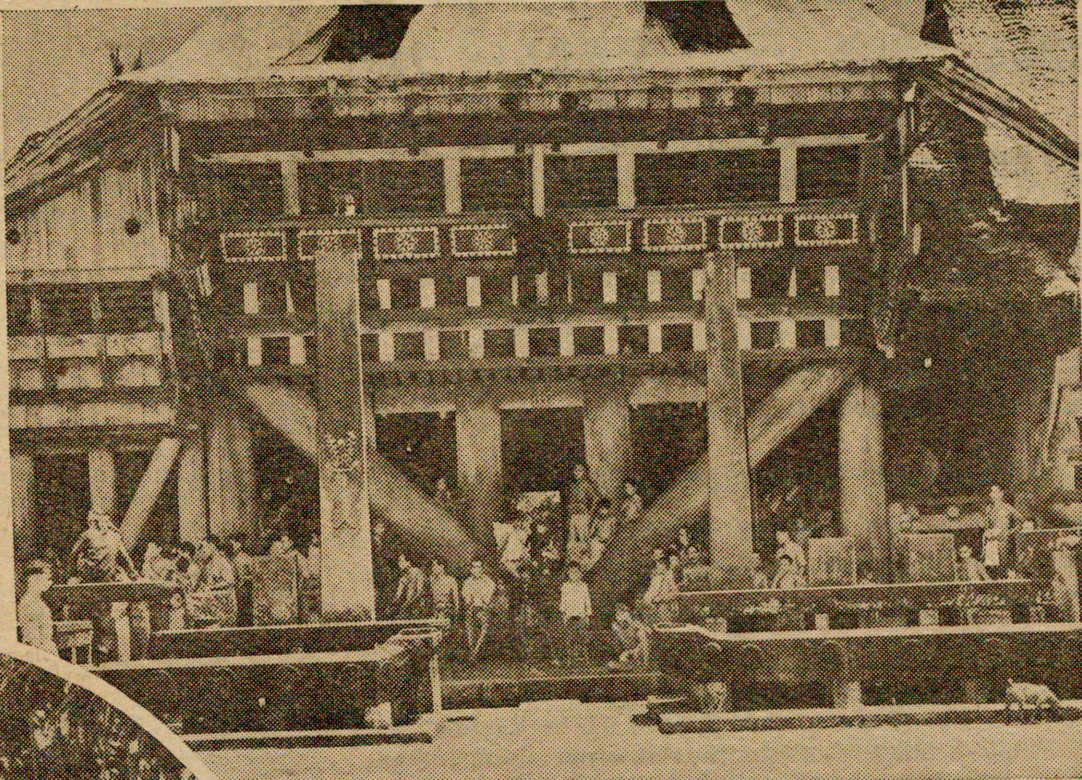

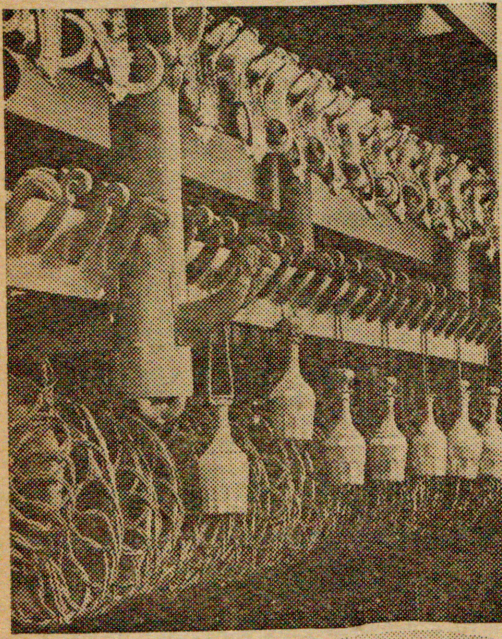

Gold has never been found on the

island, but Nias has enough on hand to buy the whole island, lock, stock and barrel. Evidently the gold was introduced by Phoenicians, and later by Portuguese.

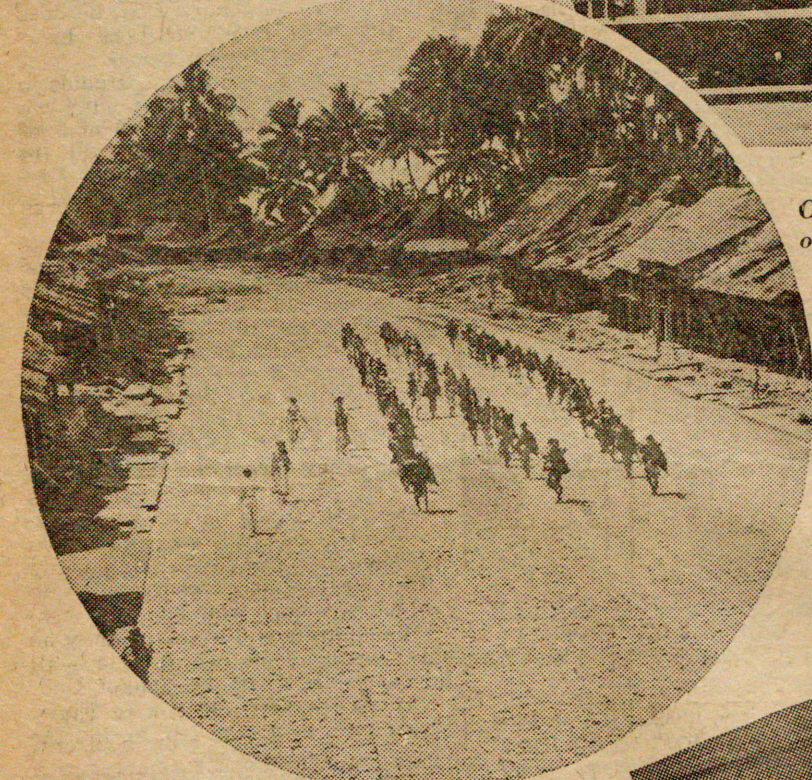

Mr. Dickason's interest was drawn to the house of the chief of Bawamataluwo (below) and its racks of pigs' jaws (lower left) which hang with clay flasks and large earthenware platters in flat openwork baskets. These, said the chief, are remains of festivals held by chiefs of generations past. Pigs are the island's sole export and, until recently, were the only form of currency.

Mr. Dickason chats with the Chief of Orahili who wears a golden hat, mustache, earring, necklace and stomach plate. The necklace is worth \$6,000.

Forces of gravity were harnessed to give stability to the house of Chief of Bawamataluwo, built of huge ironwood logs without clay, nails or thongs. Most native villages lack such strength and majesty. In front of the house are stone slabs, seats for departed ancestors. Left: The village magician who converses with spirits of the departed.

Bawamataluwo, most important village of Nias, sits on a 900-foot hill. Most outstanding features of the village are its two long streets paved with large flat stones. The entire summit of the hill has been leveled—a herculean task.

To be a warrior, every Niassian youth must clear a six and one-half foot "leaping stone" by at least a foot. Before leaping, of course, he gets a boost on the "stepping stone" in the foreground. Right: Two warriors who fence with spears and ward with shields. At close range they use swords instead of spears.

Above: Goods "in hock" at the government pawn shop, which houses enough gold to ransom a king. Few loans expire before the article is redeemed. Below: Priestesses of Bawamataluwo in festive garb.

Why . . . an Oil Polish?

And here, home-makers, is why: The oil element in polish is absolutely essential to all fine wood! For the same reason that we oil machinery—water our plants—massage cream into the face—is oil polish used! The same principle applies—for wood definitely requires this attention to keep it "alive!" The best oil polish has a fine, non-greasy oil base—and it is just this—when rubbed or massaged into the furniture—that prevents the wood from checking, drying out, splitting or cracking. Furniture will not do any of these things, when cared for—and it is the combination of the "oil" and the "rubbing" that prevents it! For the quality oil-polish "feeds" the hungry finish—keeps the wood young! Other polishes may give a quick, easy-to-achieve luster—but a little time and energy (it should not be labor) on the part of the housewife, will pay dividends in the looks and long life of her furniture and woodwork. All experts agree that an oil polish properly used (apply on damp cloth—as directed) is not only better—it is vital! And so, home-makers, take this important tip: Always use an oil polish—and the best one!

TINLEY PARK

Mrs. Raymond Birdwell and daughter Patsy Ruth of Jordentown, Texas, were very welcome visitors of Mrs. Clarence Lauffer and Miss Lucille Schilling. Tuesday, Mrs. Birdwell was formerly Miss Ruth Rothenberg of Tinley Park.

Relatives of Mrs. Wm. Schellhase Jr., became snow bound on their way home to Dolan last Wednesday evening, thereby giving them an opportunity to spend a night in Tinley Park.

The Bettenhausen Hardware Store has delivered several Westinghouse Electric Refrigerators in the past week in this vicinity.

AN EASTER BREAKFAST
Mrs. Frank Baldwin entertained the members of the Garden Dept., of the Woman's Club of Tinley Park, with an Easter Breakfast in her home on April 13 at ten o'clock. It was most beautifully appointed.

The colors used were greens, gold and lavenders. The centerpiece was of daisies, sweet peas in lavenders and surrounded by colored Easter eggs. The favors were busts of lovely ladies and Easter rabbits, (dressed up Easter eggs.)

A delightful breakfast menu was served in the harmonious theme colors.

After the breakfast the service was cleared away. The guests chose an egg from the centerpiece, a variety of appropriate stickers were provided and each guest used her own artistic taste in decorating an Easter egg. It was great fun and an enjoyable occasion.

Mrs. Wallace B. Combs, a former State Garden Dept. Chairman was present after an absence caused by illness.

Mrs. Chas. Nielsen was taken seriously ill with a gall stone attack last Sunday and was removed to St. Francis hospital in Blue Island. She is somewhat improved but may need to undergo an operation.

The Ladies Aid Society of the German M. E. church met Wednesday afternoon with Mrs. Arthur Brandau.

The Tinley Park R.N.A. will hold a bunco party April 26th.

The Elmore Poultry Co., has quite a novelty by the way of colored Easter chicks. Instead of colored Easter eggs, the youngsters can now have live colored Easter chicks. Last year this poultry company sold over 100 colored chicks. They come in various shades of colors.

Miss Bernetta Wannemacher has just had a new permanent wave machine installed in her beauty parlor.

The Tinley Park School Election held last Saturday night was a very quiet affair, only 32 votes being cast. The following were re-elected on the local board of education:

President: Bert Fulton for one year term.

For members of the board for a three year term: J. C. Funk and Edw. Henke.

Mrs. John E. Swisher and son Jack are leaving this week by auto for London, Ontario where they will spend the Easter holidays with the former's sister.

The annual confirmation service held in the Zion Luth., church last Sunday were largely attended. The members of the class were: Wm. Keuch, Fred Mancke, Wm. Bettenhausen, Otto Juergens, Emil Jurgens, Elmer Henke, Arthur Mancke, June Willman, Virginia Rick, Helen Stephenson.

The religious movie "Golgotha" shown at the Tinley Park school auditorium last Saturday night was a very impressive offering but due to the stormy weather conditions the attendance was small.

A meeting was held at the home of Mrs. J. Oulman Thursday to organize a charity sewing club.

The Civic club will hold a social meeting on Monday night, April 25.

FOR SALE—2 lots in Breitharth subdivision. Taxes all paid for only \$500. Also have an extra lot for sale. Inquire John Breitharth, 17119 Oak Park Ave., Tinley Park, Ill. 2p

CARD OF THANKS

We desire to express our deepest gratitude to our neighbors and friends and the Tinley Park Legion Post for the kindness and sympathy shown us in our sudden bereavement in the death of our beloved husband and father.

MRS. ROSE DYKSTRA AND FAMILY.

CARD OF THANKS

I sincerely thank all voters and friends in precincts 9 and 11 in Bremen township for the fine support accorded me at the primary election, Tuesday April 12.

WM. J. MOHR, Precinct Captain

A GENTLE WAY TO RELIEVE CONSTIPATION

For years millions of people have been using Rexall Orderlies, the original chocolate laxative, in place of the usual harsh laxatives to secure relief from constipation. Rexall orderlies act gently, yet thoroughly. Get a pack of 24 for 25c at Tinley Park Park Drug Store.

You Wouldn't Have Time for All This Reading . . .

Every American wants to know more about the building of his nation than the schoolbook histories tell him, but few of us have time to pore over the many volumes necessary for that.

The illustrated feature articles by Elmo Scott Watson which appear regularly in this paper offer an answer to that need.

You will find in them a wealth of interesting information on little-known chapters in American history—fact stories more fascinating than fiction. These articles also cover other fields—popular science, sports, industry, the fine arts and literature; in fact, every phase of American interest. This newspaper considers itself fortunate in being able to give its readers such articles as these by one of the leading feature writers of the country today. Tell your friends about them if they haven't seen them yet.

TO SCHOOL CHILDREN:
Teachers find these articles helpful in classes. Some students are making scrapbooks of them. Tell your teacher and your classmates about them!

In The Churches Sunday

MOKENA METHODIST CHURCH

Charles Knight, Pastor

Mass at 8:00 a. m. each Sunday of the month except the first Sunday, when mass will be at 10:00 a. m.

CHRISTIAN SCIENCE CHURCHES

"Are Sin, Disease, and Death Real?"

was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, April 10.

The Golden Text was, "The light of the moon shall be as the light of the sun, and the light of the sun shall be sevenfold, as the light of seven days, in the day that the Lord bindeth up the breach of his people, and healeth the stroke of their wound" (Isaiah 30:26).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And I heard a loud voice saying in heaven Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ" (Rev. 12:10).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy:

"The calm, strong currents of true spirituality, the manifestations of which are health, purity, and self-immolation, must deepen human experience, until the beliefs of material existence are seen to be a bald imposition, and sin, disease, and death give everlasting place to the scientific demonstration of divine Spirit and to God's spiritual, perfect man" (p. 99).

FIRST METHODIST CHURCH, TINLEY PARK

Robert B. Pierce, Minister

10:00 a. m. Sunday School.

Mr. Wm. Mabee, Supt.

11:00 a. m. Morning Family Worship service.

Miss Marian Mabee, Organist

The children of the Primary Department of the Sunday School wish to invite their parents to attend their Easter morning exercises.

Then the morning church service will be especially planned to be one of true rejoicing for the whole family. Let us make our Easter Sunday really one of family worship, in which the youngest and the oldest shall join together to praise God on the day that commemorates the triumph of Christ. Mr. Brown Campbell will sing the Easter offertory.

Visit the church with the friendly spirit!

STATE OF ILLINOIS, County of Cook, ss.

TOWN OF ORLAND

OFFICE OF TOWN SUPERVISOR

The following is a statement by Fred E. Yunker, Supervisor of the
Town of Orland in the County and State aforesaid, of the amount of public
funds received and expended by him during the fiscal year just closed
ending on the 29th day of March, 1938, showing the amount of public
funds on hand at the commencement of said fiscal year; the amount of
public funds received, and from what sources received; the amount of
public funds expended, and for what purposes expended, during fiscal
year ending as aforesaid.

The said Fred E. Yunker, being duly sworn, doth depose and say, that
the following statement by him subscribed is a correct statement of the
amount of public funds on hand at the commencement of the fiscal year
above stated, the amount of public funds received, and the sources from
which received, and the amount expended, and purposes for which ex-
pended, as set forth in said statement.

FRED E. YUNKER.

Subscribed and Sworn to before me, this 5th day of April 1938.

LaVon Kay, Notary Public.

The Importance of Silage

Many people value silage chiefly for its succulency and roughage volume as distinguished from its feed gains or milk possibilities per acre of ground used for silage crop. Of all the common grass crops (including grains) grown by farmers in this region, corn as silage and properly ensiled when used in its proper place in the feed rations carries the opportunity of greatest gains or monetary return per acre of ground used. Realizing the possibilities of silage, it is then important that we use a seed corn for silage that will make these possible acre gains actual and real, and that in turn means the higher profits.

We need that seed corn that will not only get the most out of the soil during the corn growing season but move and translocate from the roots all the nutrition taken from the soil to the grain before the corn is cut for ensiling.

The practice of making silage in this region has been largely to use for seed the left-overs of our crib corn acreage seed planting or any poorer or secondary grade of seed that we would prefer not to use, for our regular corn planting. This practice should be reversed because if our silage acreage can yield us the most gains or profits per acre of corn grown, why not first increase this larger measure of profit by using the best seed for silage corn, not the poorest.

Many have also been of the opinion that by buying seed from the farther south regions with a longer growing season and greater volume foliage, hence greater volume in the silo, that such would give us the most returns per acre. This is also a mistaken thought. The corn that will give us the most feed or milk gains per acre is that corn which will mature and get ripe within our season and which can therefore, in its final maturing stages move or translocate through root absorption all the previously gathered nutrition within the root system to the grain before cutting. When corn is cut green, what remains in the roots and not translocated can not help the silage but simply registers loss of food materials that the silage should have contained.

When growing crib corn we want the ears that will give us the highest yield of corn per acre. This means that we want a type of corn plant that is a high powered plant food getter and which can not only reach down into former untapped soil zones but get the most plant food nutrition per hour or per day of its growth. We should apply this same requirement and specification to the type of corn we get for making silage. If a certain strain of corn makes the most sound crib corn per acre it will make the most feed and milk gains per acre in the form of silage. If certain strains of hybrid corn with their deeper rooting, deeper moisture getting and higher plant food extraction per acre are the hybrids we select for our crib corn, they should keep in mind that as silage can give us the greatest feed or milk gains per acre it should have the best and highest yielding types of hybrid seed for its growth.

The custom prevails of planting silage corn after the crib corn planting is completed. This seems to be proper practice. Why? In the most profitable growing of corn we should use those strains of corn that on the average utilize practically all of the growing season. If we planted a strain of corn that to positively avoid any frost damage, matured over a month in advance of frost we would be needlessly reducing our possible yields as the shorter the season the lower the yield.

When we use the entire growing season we are timing our maturing stages of growth with the cooler nights, (needed for the rapid conversion of sugars into starch) hence, corn that matured in late August and September would ordinarily fail to have this advantage. Where on the other hand, we select a corn that utilizes in the main all of our growing season it will run into some very cool nights, some even very light frosts. For this condition we need a cold resistant corn which does not pass out with cold nights but remains alive, reducing moisture and making high density (pound weight) sound corn. With this maximum yield practice likely one year out of four or five, we may suffer some frost damage but this is better than growing low yield corn for all of the five years. If we run into occasional frost damage making soil corn, such is less damaging in silage than in sort corn; hence, we give our corn the greater opportunity of completely maturing and let our silo corn venture closer to the frost line limit.

There are strains of hybrid corn that can withstand light frosts without death or much apparent injury, going into the approach of the frost season with matured ears, dry husks, but green leaves and live stalks and that can withstand light frosts, sufficient sugar in the stalk and materials that will ferment and keep the ensilage in the silo yet with a matured ear that has reached a much advanced stage of feed value than the soft under-ripe ear. Many recall the five early frosts that we experienced in 1937 beginning in the last of September and reoccurring up to the middle of October and further recall the illustration that we have just described of the matured ears with the dry husks but green leaves and live stalks that had withstood these frosts without apparent injury in the Thomson Hybrid Seed fields along the Rock Island Highway, Frankfort town-ship, and illustrating that this Top-Yield hybrid seed corn could be

HOMER

The Rev. Paul Sanders of the Community Center Foundation at Palos Park had charge of the church services in the Congregational church Sunday morning, April 3. The wayside workers of the Kings-Daughters had charge of the services on Sunday morning April 10. Miss Isabel Anderson read the sermon.

Due to the snow bound roads, school elections were postponed until next Saturday night at the Wells corner school and the Solterman school. Election was held at the Hadley school and Ralph Bell was elected for a three years term; in the Goodings grove school, Andrew Braasch was elected for a three years term.

The quilting club of Joliet to which Mrs. Ray Myers belongs were entertained at her home Wednesday.

Miss Edna Myers who broke a bone in her ankle recently, was able to resume her duties in Joliet this week.

Mr. and Mrs. Andrew Braasch and daughter Shirley attended a golden wedding celebration in honor of Mr. and Mrs. Henry Braasch at the home of Mr. and Mrs. William Braasch in Palos Park Saturday evening. A bounteous dinner was served at 6 o'clock. Dancing was enjoyed until a late hour and a lunch was served at midnight.

Clyde White who broke his leg several weeks ago is able to be about on crutches now.

Mrs. Jacob Homering of Orland was stranded at the home of her mother Mrs. Wm. Lister during the big snow storm last week.

Mr. and Mrs. Clarence Weis are the proud parents of a baby daughter born at the home on Tuesday.

Miss Anderson of Chicago visited over the week end at the home of her parents, Mr. and Mrs. Carl Anderson.

Mr. and Mrs. Frank Rodgers of Joliet were dinner guests Sunday evening at the Henry Rodgers home.

Mr. and Mrs. Elmer Johnson of Joliet were dinner guests Sunday at the home of the latter's parents, Mr. and Mrs. H. R. Myers.

Mr. and Mrs. John Stein and daughter of Lemont visited Sunday in the Andrew Braasch home.

Willard Burde of Round Lake visited Sunday in the home of his mother Mrs. John Brier.

Walter Bump of Joliet was a guest of his brother Guy Bump Sunday.

The Womens Community club will meet Wednesday afternoon on April 13 in the home of Mrs. Reed Burch with Miss Ida Harrington of Lockport as the hostess.

Edwin Cagwin has been detained from his duties at the Lockport high school by measles.

The Wayside Workers Circle of Kings Daughters meeting which was scheduled to be held last Thursday at the home of Mrs. Walter Pad-dock has been postponed indefinitely.

While playing golf last Sunday, Frank Hartman, Jr. had the misfortune to sprain his back quite badly and was unable to attend his duties with the Public Service company this week.

Miss Verna Paddock a student nurse at the Silver Cross hospital in Joliet spent the past week with her parents, Mr. and Mrs. Maurice Paddock.

grown for silage reaching the maximum yield for the season of growth and yet be at a stage and in a condition most suitable for ensilage.

There are other factors pertaining to planting of silage corn when planted last. Its infant stage experiences a higher rate of competitive weed growth. To meet this with the high cost of labor, making hoeing impractical, we must cultivate early in order to cover weeds before such gain headway on the corn. We therefore, want a quick germinating corn that will make strong, sturdy fast growing seedlings that will best permit their early cultivation and also as much as possible catch up to the earlier planted crib corn. Many people, too, drill their silo corn instead of checking and therefore, all the more require that quick early growth that enables weed covering. Where silage corn, therefore, has the possibility of making the most money gains per acre it deserves and repays every step we make for its betterment including the selection and use of the best obtainable hybrid seed.

Hybrid seed in planting for ensilage use does not in the practice of many require the same precision or accuracy in hill count control. This particularly applies where corn is drilled. Hence, those deciding to adopt hybrid seed for silage this year can do so advantageously by getting sizes of seed that have the same amount of plant food per kernel but at a lower price. The same reasons do not apply for getting the particular flat sizes required by some for crib corn planting who to avoid getting new or additional planter plates for the purpose insist on the kernel shape and size they used with their open pollinated corn. Such farmers can with the same plates used for crib corn planting get the hill count that will suit them for silo corn and yet use a lower priced hybrid seed and all of which will in the end make their silo corn the most profitable of their corn acreage.

The whole question of seed for silage corn is just as important as the question of seed for crib corn and investigation may enable many farmers to lower their silage corn seed cost but have the very best feed suited for their purpose, and with the one big interesting result of increased monetary income.

Mrs. Alfarata Kopleman has been seriously ill the past week.

Mrs. Grace Piggott entertained a group of friends in her home Saturday night in honor of her son, Eugene's seventh birthday anniversary.

Geo. Bump, Jr. and Leo Bokoskie were detained in Oak Forest Friday night by the many snowbanks. The Dramatic club held its monthly meeting in the Homer church parlors Tuesday evening.

Mrs. Swartz, daughter Miss Marie and son Carl of Chicago were guests at the home of Mr. and Mrs. Henry Rodgers, Sunday.

Miss Evelyn Kopleman spent a portion of the week at the home of Mr. and Mrs. Walter Haley in Goodings Grove.

Mr. and Mrs. Maurice Paddock and family have moved their household goods to Lockport and will make their home with the formers mother, Mrs. Elmer Paddock.

Mrs. David White of Joliet spent the past week with her daughter, Mrs. Ray Myers.

Cook County Farmers Notified of AAA Allotment

Corn acreage allotments and soil-depleting allotments in connection with the 1938 agricultural conservation program have been announced for individual Cook County farms, according to Farm Adviser C. A. Hughes of Cook County.

Each farmer and landowner is being notified of his allotments by a card mailed from the office of the county agricultural conservation committee. Any farm operator or owner who fails to receive his card may obtain his acreage allotments by communicating with or calling at the office of the county committee where allotments of all Cook County farmers are posted.

The individual allotments represent each Cook County farmer's share of the allotments for the county which for corn is 50,877 acres and for soil-depleting acreage is 120,915 acres.

County allotments were established by the state committee by distributing the state acreage allotments among the counties on the basis of the acreage of corn planted during the 10 years, 1928 to 1937, inclusive, with credit being given for acreage diverted in applicable years under agricultural adjustment and conservation programs, and taking into account weather conditions and trends in acreage.

The county allotment was apportioned to individual farms by county and township committees on the basis of tillable acreage, crop rotation practices, types of soil and topography.

Keeping corn and total soil-depleting acreage within the corn and total soil-depleting acreage allotments is one of the two requirements to be met by farmers to qualify for full payment under the 1938 program. The other requirement is the use of soil-conserving practices to meet the soil-building goal for the farm.

Canton Island

Canton island is the chief spot of land among the tiny dots which make up the Phoenix group, 2,700 miles north of New Zealand. The importance of this archipelago, which lies just south of the equator, is readily seen on any map of the South Pacific. The Phoenix group lies almost on a line between New Zealand and Honolulu, practically half way between the two. Canton island covers about eight and a half square miles, nourishes shrub vegetation and provides a salt-water lagoon navigable to boats which draw up to 5 feet.

A Good Man

A wise and good man does nothing for appearance, but everything for the sake of having acted well.

Jefferson's Birthday

By RAYMOND PITCAIRN

National Chairman
Sentinels of the Republic

"The immortality of Thomas Jefferson does not lie in any one of his achievements, but in his attitude toward mankind."

Again, as we observe the anniversary of his birth, Americans recall that tribute to the author of our Declaration of Independence.

What was his attitude? What would it be toward the problems of today? Jefferson's own recorded words answer such questions.

He believed whole-heartedly in the voice of the average citizen in government.

"That government," he said, "is the strongest of which every one feels himself a part."

"I consider the people who constitute a nation as the source of all authority in that nation."

He believed in the constant vigilance of the people over their government.

"Every government," he wrote, "degenerates when trusted to the rulers of the people alone. The people themselves, therefore, are its only safe depositories."

"Whenever the people are well-informed and things get so far wrong as to attract their notice, they may be relied upon to set them to rights."

"It behooves our citizens to be on their guard, to be firm in their principles, and full of confidence in themselves."

He believed in the American idea of balanced powers in government.

"The principle of the Constitution," he declared, "is that of a separation of Legislative, Executive and Judiciary functions, except in cases specified."

"If the three powers maintain their mutual independence . . . our government may last long, but not so if either can assume the authorities of the other."

"It is not by the consolidation or concentration of powers, but by their distribution that good government is effected."

He believed in the power of Congress as a direct representative of the will of the people.

"The authority of Congress," said Jefferson, "can never be wounded without injury to the present Union."

The American people remember those admonitions. They have demonstrated this by protests, both recently and in the past, against usurpations of power, or the surrender of their own or their representatives' voice in government.

And that is as eloquent a tribute to Jefferson as any uttered by great orators.

Spontaneous Combustion

Spontaneous combustion is fire resulting from heat produced as a result of the combination of oxygen with other substances. Rags, cotton waste, newspapers, straw and many similar materials give off heat of sufficient amounts to reach the kindling point of the materials, which burst into flame. Papers and magazines stored in a hot attic may result in spontaneous combustion.

APRIL SHOWERS

LINCOLN ESTATES

Mrs. R. Fisher.

Mr. and Mrs. Clarence Murray and son Raymond spent Monday afternoon in Joliet.

Mrs. C. J. Fisher is ill in her home on 79th avenue with the flu.

Mr. and Mrs. Otto Metz of Chicago spent Sunday evening in the Ed. Gill home.

Mr. and Mrs. R. M. Fisher and Mrs. Edw. Hermanck were business callers in Chicago Saturday.

Mr. and Mrs. Oscar Fisher and son of Whiting, Indiana, Mr. and Mrs. Duncan and daughter of Terre Haute, Indiana were visitors in the R. M. Fisher home Sunday.

Mr. H. A. Melville made a business trip to Chicago Monday.

The school election of District 156A was postponed last Saturday until April 16.

The scholars of Ann Rutledge school will have a holiday for Easter from this Thursday to next Tuesday morning.

Mrs. Geo. Walker attended a Teacher's meeting Tuesday afternoon.

Mr. and Mrs. Frank Kovar made a business trip to Joliet Saturday.

Mrs. Edw. Hermanck and daughter Lenea were in Joliet Thursday afternoon.

Even tho the weather was bad last Sunday there were 26 in attendance at the Baptist Gospel Mission.

The Inns of England

The Inns of England have their foundations in the depths of the Middle ages. Some of them have seen the almost prehistoric changes from crude earthen floors to stone floors and from stone floors to mats of rushes. They have sheltered kings and pilgrims, merchants and all kinds of travelers, and between the occasions of more spectacular hospitality they have gathered about them all the richness of the social life of the neighborhood, for it is at the inn that men have always met and expanded a personal and political philosophy.

Complacent—Complaisant

A person showing satisfaction or who is pleased with himself is complacent; one who allows freedom to others is complaisant. Flattery was meat and drink to Uncle Charles, who sat with a complacent smile as he listened to his praises being sung. Aunt Emily was in a complaisant mood, and allowed us to play in her garden.—Tit-Bits Magazine.

MASTER'S SALE

State of Illinois,
Will County,)
ss

In the Circuit Court of Will County, March Term, A. D. 1938. Robert R. Wallace, as Receiver of the The First National Bank of Joliet, et al.,

Plaintiffs

—vs—

Harry S. Warner, et al.,
Defendants

In Chancery No. 44208.

Public notice is hereby given, that, in pursuance of a decree of said court, entered in the above entitled cause on the 4th day of March, A. D. 1938, the undersigned Master in Chancery will, on Friday, the 22nd day of April, A. D. 1938, commencing at ten o'clock in the forenoon, (Central Standard Time) within the west main door of the Court House, in the City of Joliet, County of Will and State of Illinois, sell to the highest and best bidder or bidders the following described real estate, or so much thereof as may be sufficient to satisfy this decree, to-wit:

Lot Five (5) in S. W. Randall, et al., Subdivision of Block One (1) of Crescent Stone Company's Subdivision of the Southeast Quarter (SE 1/4) of the Southeast Quarter (SE 1/4) of the East Fifteen (15) Acres and the North Half (N 1/2) of the West Twenty-five (25) Acres of the Southwest Quarter (SW 1/4) of the Southeast Quarter (SE 1/4) of Section Fifteen (15), in Township Thirty-five (35) North, and in Range Ten (10), East of the Third Principal Meridian, situated in the County of Will and State of Illinois.

Terms of Sale: for cash. Dated at Joliet, Illinois, this 31st day of March, A. D. 1938.

JOHN J. WELLNITZ,

Master in Chancery of Will County, Illinois.

Thomas F. Donovan,
Complainant's Solicitor.

Increase Milk Income With Thomson's Top-Yield Hybrid Corn For Silage

IT PARTICULARLY SUITS SILAGE CORN REQUIREMENTS. Quick germination and seedling growth permits early weed control with cultivator, thus limiting weed competition for sub soil moisture. Top-Yield hybrid corn enables a longer growing season with advanced maturity and yield making possible a quality of silage hitherto unreached. The greater milk or feed gains will increase your acre profits many times over cost of seed. Graded to the sizes and shapes that will afford all silage growers a low seed cost. Acre seed cost as low as thirty five cents. Call early for seed. Four Leaf Powdered Rock Phosphate kept in stock (in bags) for hill drop or row application.

COOTIES ON THE FARM ARE EXPENSIVE BOARDERS

Many farm animals carry a generous crop of lice and other external parasites during the winter and spring months.

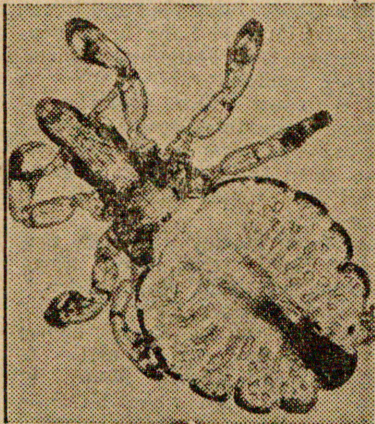

Surely not from choice, but the hog probably carries more such boarders than any other domestic animal. Authorities say that it costs two or three cents a pound more to fatten a lousy hog—a heavy bill to pay, when a little attention will rid a herd almost completely of these parasites.

Hog lice not only reduce the gains the animal makes, but they also spread disease. They are known spreaders of swine pox, and possibly of hog cholera and other infections. Biting lice cause anemia, and in sufficient numbers, they may cause the death of the hog.

Hand in hand with lice goes the mange mite—another costly parasite. Mange hogs never make proper gains, and farmers suffer a deduction for mange when the hogs are finally marketed.

Both mange and lice can be controlled during warm months by dipping, coupled with the cleaning and disinfecting of hog houses and lots.

Dipping is impractical in the winter, but the local veterinarian can provide special methods of cold weather eradication, suited to the season and the animal. As a preventive, some farmers find it a good thing to spray bedding and hogs with medicated oil, or

Enlarged view of a pig louse, showing its lobster-like nippers.

to wrap posts with oil-soaked burlap bags against which the hogs can scratch.

Killing cooties on the farm always pays big dividends. It takes time and persistence, but it promotes better health, better growth, and better gains worth many times the effort involved.

School Control May Be Superseded By Political Control

A warning that local control of schools throughout Illinois may be superseded by political control vested in an all-powerful State School Board was issued this week by Mrs. Eva B. Batterton, local Springfield business woman and former High-school Principal and County Superintendent of Schools.

Speaking under sponsorship of the Illinois Civic League, Mrs. Batterton said: "I am not among those who charge that lust for more power motivates the Governor in his plan to abolish local control of schools and place them under jurisdiction of a State School Board, all members of which shall be appointed by the Governor with the consent of the Senate.

"I have neither the intention nor the desire to impugn the Governor's motives. I am willing to go farther and concede that he is earnest in believing, 'The hopes of education in Illinois were blasted', when his bill to create a State School Board was defeated.

"He may really feel that a State School Board which he would appoint can administer your schools better than they are being administered by your local school boards. But however benign the purpose, the proposal smacks of political paternalism that should never dominate the public school system of Illinois.

"I do say, however, that the Governor realizes there are ugly potentialities in the plan. Note his words to the County Superintendents of Schools and the teachers of Illinois last December.

"He said, 'There may be those who mistrust any steps which may lead to thorough revision' in our school structure. They should be re-assured by the personnel of the permanent School Board which is proposed. . . . If a State Board of Education is established during my Administration, its original members will be outstanding citizens, free from the taint of personal or partisan interests."

"The Governor pledges himself to appoint members who will not abuse the wide powers vested in them, but we must consider the possibility of the appointment of unscrupulous men by Executives less conscientious than the Governor. The risk is too great.

"We must refuse to let the public school be made a political pawn. Hereafter, as heretofore we must keep the public school out of politics, and politics out of the public school.

"John A. Wieland, State Superintendent of Public Instruction, is opposed to the State School Board Plan as it was presented in Senate Bill No. 1, the Bill which Governor Horner supported and which he says will be re-submitted to the Legislature.

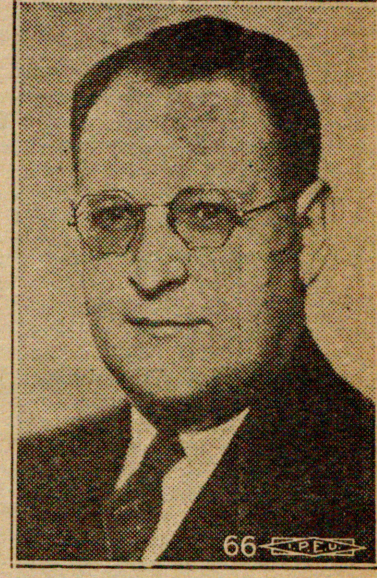

"He led a courageous fight to defeat the Bill and if he is renominated and elected he can be counted upon to defend the local control of our public schools.

The Old Louisiana Lottery
Beginning in 1869, the Louisiana lottery did a business of \$28,000,000 a year. It paid the state an annual fee of only \$40,000. In 1890 a federal law was enacted barring use of the United States mails to the Louisiana or any other lottery. This forced the Louisiana company to migrate to Honduras where it continued to operate for a while, but finally succumbed.

OUR SNAPSHOTS

An important phase of America's 1938 building program is home insulation with mineral wool. Because of its efficiency and the ease with which it may be used on both new and old homes, architects and builders recommend complete insulation with mineral wool. At upper left, workman is placing four-inch bats of fire-proof mineral wool between sidewall studs of a new home. At lower right is demonstrated method of filling sidewalls of old houses with mineral wool for year round comfort and economy.

Men's clothes weigh less than women's — William Hartnett's washable Palm Beach suit weighs less than Elaine Carraway's sport combination. Photo taken at Miami Beach, Fla., where Palm Beach suits are the vogue with students who demand more comfort in classrooms.

TINLEY PARK

AN ORDINANCE GOVERNING THE ERECTION OF SINGLE OR TWO FAMILY RESIDENCES IN THE VILLAGE OF TINLEY PARK, ILLINOIS.

Be it ordained by the President and Board of Trustees of the Village of Tinley Park, Illinois:

SECTION ONE

No building shall be erected or be remodeled within the Village of Tinley Park without a permit first being obtained for the same by the owner or his agent from the Village Clerk under the terms and conditions as hereinafter provided and it shall be unlawful to proceed with the erection or remodeling of any building or any part thereof unless such permit shall have been obtained from the Village Clerk.

SECTION TWO

The owner or agent desirous of obtaining such a permit to erect a new building or to remodel an old one shall first leave with the Village Clerk two complete sets of plans for such building drawn to a scale of not less than one-eighth of an inch to the foot, on paper or cloth, in ink, or by some process that will not be obliterated. All distances and dimensions shall be accurately figured and the drawings made explicit and complete.

In case of remodeling where a written description of such remodeling can be made, said written description shall be deposited with the Village Clerk in lieu of a set of plans drawn to scale.

SECTION THREE

It shall be unlawful to erase, alter, or modify any lines, figures or coloring contained upon such drawings or specifications after they have been approved and a permit issued therefor unless supplemental plans have been filed with the Village Clerk for approval.

SECTION FOUR

The Village Clerk shall submit to the Building Committee of the Village Board of Trustees all such plans submitted to him and he shall only issue a permit after said committee shall have returned one set of plans stamped with their approval and when the owner or agent shall have paid the required fee or fees.

SECTION FIVE

The following fees shall be paid to the Village Clerk upon the issuing of building permits:

- For each building the value of the construction, repair or alteration of which shall not exceed \$200.00, the sum of 50c.
- For each building the value of the construction, repair or alteration of which exceeds \$200.00 but shall not exceed \$2000.00 the sum of \$3.00, garages and outhouses excepted, see section 16.
- For each building the value of the construction, repair or alteration of which shall exceed \$2,000.00 the sum of \$5.00.

The value of such construction, repair or alterations shall be ascertained and determined by the Building Committee of the Board of Trustees. But any applicant who considers the determined fee to be too high may file with the Board of Trustees a sworn affidavit by the contractor, builder or architect as to the actual cost of such construction, repair or alteration and the Board shall then determine the fee in accordance with such affidavit or certificate of cost.

SECTION SIX—FOOTINGS

No permit shall be issued unless the plans clearly specify that the footings for walls are at least twelve inches wider than the thickness of the foundation walls and at least six inches deep. Said footings must also be not less than thirty inches below the ground level.

SEC. SEVEN—FOUNDATIONS

Foundations shall be constructed of any of the following: Approved cement, concrete, brick, concrete blocks, iron or steel and where iron or steel is used the filling and the coating of the same shall be Portland Cement.

Foundation walls shall be of the following thickness:

- If the height of the building is over 20 feet the foundation walls must be not less than twelve inches thick.
 - If the height of the building is less than 20 feet the foundation walls must be not less than eight inches thick.
- Where a building is to have a pier foundation such piers shall be of cement, or concrete, concrete blocks or brick not less than fifteen inches square and said piers shall not be over eight feet apart, each pier resting upon a cement or concrete footing of the proper size. Cedar posts or wooden piers of any kind are absolutely prohibited.

SECTION EIGHT

a. The base or ground area of all one story residences of the bungalow type for one family purposes shall be not less than 800 square feet.

b. The base or ground area of all story and a half or cottage type residences shall not be less than 700 square feet.

c. The base or ground area of all two story residences for one family purposes shall not be less than 500 square feet.

d. The base or ground area of all two story residences for two family purposes shall not be less than 800 square feet.

Where a garage is an integral part of the plan of a house and is attached thereto, the area of the garage shall not be computed as part of the area of the building. Utility rooms attached to such garages are not to be considered or computed as part of base area.

SECTION NINE—SIZE OF JOISTS

a. Floor joists of all single

family bungalow type where span is 14 feet or less shall not be less than 2" X 8" while the roof or attic floor joists shall not be less than 2" X 6". Where span is 14 to 18 feet, the floor joists shall not be less than 2" X 10" and where the span is over 18 feet the floor joists shall not be less than 2" X 12". All roof or attic floor joists shall not be less than 2" X 6".

b. The floor joists in all story and a half and two story residences shall not be less than 2" X 10". Roof of the second story or the attic floor shall not be less than 2" X 6".

Roof rafters shall not be less than 2" X 6"; if span is over 18 feet be spaced not more than 16" center.

SECTION TEN—

HEIGHT OF WALLS

a. The height of the walls in all rooms in all single family bungalow type residences shall be not less than eight feet.

b. The height of the walls in all rooms in single family residences of the story and a half and two story type shall be as follows:

- On the ground floor all walls shall be not less than eight feet high.
- On the second floor all walls shall not be less than seven and one half feet high.

c. The height of the walls in all rooms of a two-family type of residence shall not be less than eight feet either on the first or second floor.

SECTION ELEVEN—

HEIGHT OF RESIDENCES

No house shall be erected having a greater height than twenty-eight feet from the grade line.

SECTION TWELVE

No residence or garage or outbuilding shall be erected closer than a distance of three feet to the lot line and the front line of all residences shall conform to the building line of the other residences in the block.

SECTION THIRTEEN

No garages or outbuildings shall be erected closer to any dwelling house than a distance of 15 feet, provided however, that this section shall not apply to garages which are an integral part of the house plan and are attached thereto. Chicken houses must not be erected closer than 30 feet to any dwelling house.

SECTION FOURTEEN

All rooms in residences of every type shall have openings for air and light not less than 12-1/2% of the square area of such rooms in size.

SECTION FIFTEEN

All bathrooms shall have openings for light and air and if they are interior rooms they must have some vent to the outside and be equipped with a circulating fan or an air conditioner of some kind.

SECTION SIXTEEN

No garage or outhouse as a detached part of a family residence shall be erected without first obtaining a permit from the Village Clerk. The application shall state the size of the proposed garage or outhouse i. e., its height, length and breadth and the materials with which it is proposed to erect such garage or outhouse and the purpose for which said garage or outhouse is to be used.

The use of such garage or outhouse for residential purposes or for storing inflammable or explosive material is absolutely prohibited and permits therefor will not be issued.

The building committee will instruct the Clerk to issue such permits only when fully satisfied that such garages or outhouses are to be properly and substantially erected.

When such garages or outhouses are included in the plans of a residence, the permit fee for such residence shall include such garage or outhouse but in all other cases a permit fee in the sum of \$2.00 shall be charged.

SECTION SEVENTEEN

No chimney shall be built with less than a four inch wall of brick, stone, concrete or burnt shale with tile flue lining one inch thick. Said chimney shall rest upon a proper footing of proper size and having a thickness of not less than the foundation wall footing.

The use of unprotected metal flues inside any type of dwelling house will not be permitted.

SECTION EIGHTEEN

Any person or persons, firm or corporation who as owner, lessee or builder who violates, neglects or refuses to comply with, or resists enforcement of any of the provisions of this ordinance shall upon conviction thereof be fined not less than \$10.00 nor more than \$200.00.

SECTION NINETEEN

All ordinances or parts of ordinances in conflict herewith are hereby repealed insofar as they conflict herewith.

This ordinance shall be in full force and effect from and after its passage, approval and publication. Passed by the Board of Trustees of Tinley Park this 30th day of March, 1938.

C. A. NIEMANN,

Village Clerk

Approved by me this 30th day of March, 1938.

FRANCIS A. HARPER,

President of Board of Trustees.

Finding a Wise Man

"If you can find a wise man," said Hi Ho, the sage of Chinatown, "you are fortunate in being able to admire him. If he is also a good man, you are still more fortunate in being able to trust him."

Clouds Drape Mountain

On Table Mountain, near Capetown, South Africa, snow-white clouds form into a thin layer which drapes itself over the mountain like a tablecloth.

MARLEY

MISS FRANCIS GILLETTE

Mr. and Mrs. Herbert Corp and son Jack and Miss Iona Mae Maltby of Plainfield were dinner guests Sunday in the Alfred Sproat home.

Mr. and Mrs. Wm. Moore of Chicago Heights were Sunday dinner guests in the Mervin Moore home.

Wilbur Rapson received an injury to his knee while at work.

Mr. and Mrs. Herman Schoeche and Mrs. Schoeche of Chicago visited Sunday in the home of Mrs. Elizabeth Haley.

Mr. and Mrs. Will Kase of Cherry Hill were guests Sunday in the Kase-Woods home.

Mr. and Mrs. Clarence Rowley and daughter Marilyn of Plainfield were recent guests in the A. L. Sproat home.

Mr. and Mrs. Louis Nelson and daughter Gladys, attended the funeral of Mrs. Mervin Long in Chicago Saturday. Mrs. Long was a former Marley resident.

The Women's Club meeting is postponed from the regular meeting day, April 12, because of Election Day, to April 19, when Mrs. Everett Bell and Mrs. James Bell will be hostesses.

Those from Marley who were marooned by the recent snow storm were: Alphonso Kohl, Edw. Sproat, Homer and Florence Bush and Mrs. Iva Sproat, in the R. Bennett home; E. D. Gillette and Frances in the H. Storm home and Mervin Moore in Harvey. Many high school students also had to remain in Joliet several days.

Next Friday evening, Good Friday, services will be held in the Marley church at eight o'clock.

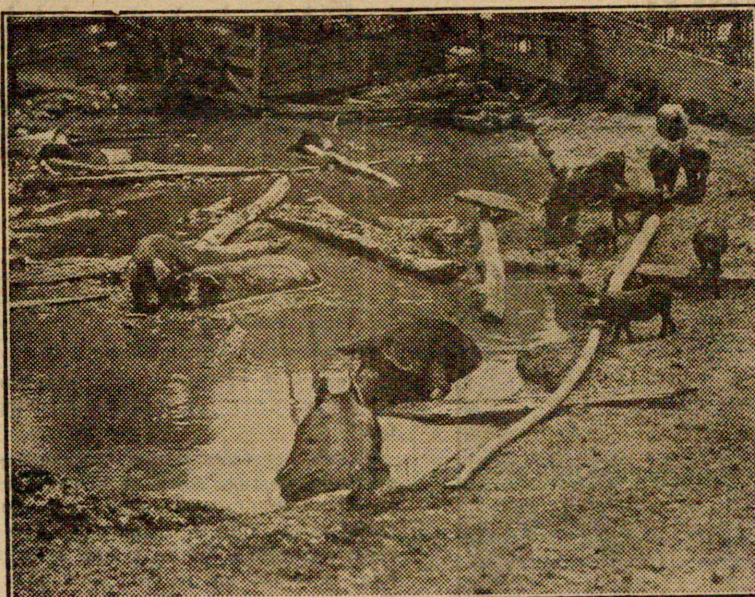

On Easter Sunday, a Sunrise service will be held in Messenger's forest preserve. Meet at the church at five a. m. and go from the church to the forest preserve. Those who attend are asked to bring 15c for the breakfast which will be served.

Miss Helen Tilsy will have charge of the S. E. Club meeting Sunday evening.

Cellulose in Plant Life
Cellulose forms the greater part of the framework of all plant life.

HEALTH HINTS
for LIVESTOCK

PREPARED BY
AMERICAN FOUNDATION FOR ANIMAL HEALTH

Mud holes are breeders of disease germs and parasites, and are expensive luxuries for the farmer.

Farm Cleanup Will
Reduce Livestock
Disease One-Fifth

A few days spent in cleaning up the barnyard and stock barns would add many dollars to the average farmer's livestock profits.

Old hog lots and unsanitary quarters harbor the parasites and the germs of numerous livestock diseases.

Mange, lice, swine enteritis, chicken cholera, horse distemper, contagious abortion, hog cholera, and lockjaw are among the common menaces to farm livestock which may lurk in old, infested lots and quarters. At least a 20 percent reduction in livestock disease the first year will reward the farmer

who will undertake such a cleanup.

First steps suggested are: Fill up or fence off mudholes, burn old straw stacks, board up holes beneath buildings, fence off manure piles, eradicate rats, mice, pigeons, sparrows, spread crushed rock around water tanks, clean and disinfect all buildings used by animals, scrub all feed boxes and roosts with hot lye water. The McLean county clean ground system of swine raising has been a great forward step, because it removes young pigs from these very dangers of infection from old lots and buildings.

Germs of some livestock diseases can live for several years in mudholes or dark corners of barns, awaiting an opportunity to find a suitable host. So an annual cleanup is almost necessary if the farmer wants to raise stock for maximum profit.

FRANKFORT
Mrs. Herbert Kohlman

Mr. and Mrs. Geo. Elsner visited their daughter Dorothy in Champagne on Sunday, April 3.

Mrs. Geo. Eisenbrandt and Mrs. Geo. Elsner attended the meeting of the 4-H in Joliet on Tuesday April 5. They received instructions to lead the local organization.

Mr. and Mrs. Arthur Eisenbrandt entertained at a dinner on Sunday April 10 in honor of their nephew Donald Carroll who was confirmed.

Mr. and Mrs. Niels Damgaard entertained relatives and friends Sunday April 10 in honor of their daughters Mary and Evelyn who were confirmed. The girls were honored also by receiving telegrams just before the service from Denmark from their grandparents in honor of the occasion.

Arlene Jensen was not confirmed with the class of the Evangelical church on Sunday because she was ill with the measles, nevertheless, she will be confirmed as soon as her condition will permit.

Miss Louise Scheer a graduate of the Nu-Way Beauty school went to Chicago on Thursday where she took her state beauty culture examination at the National school of Cosmeticians. Miss Eunice Arling, also of the Nu-Way was Miss Scheer's model.

Miss Viola Lankenau will entertain the Amite Sewing club on April 19.

The pupils of the Joliet Township high school will enjoy their spring vacation beginning on Good Friday and resuming work April 25.

Mr. Ernest Pfeifer was re-elected school director for the next term of 3 years on Saturday April 9. The special election held in regard to the erection of a gymnasium resulted in its favor.

Mrs. Josie Thulin of Chicago spent Sunday here with relatives.

Tall Ferns in Hawaiian Islands

The Hawaiian islands are the home of the world's tallest known ferns. They grow to a height of 30 to 40 feet there.

You Save Money When You Replace Your Old Out-of-Date Refrigerator with a NEW 1938 REFRIGERATOR

MAKE US PROVE IT TO YOUR SATISFACTION

● Find out why out-of-date refrigeration methods keep piling up wasteful costs for you month after month, year after year!

Learn how you can now make ice at lower cost. Learn why the new 1938 refrigerators with quiet, efficient modern freezing units knock down high operating costs—guarantee low upkeep costs year in and year out—give you more years of economical service. Discover how low, even temperatures keep food fresher, safer, longer—cut food costs and safeguard family health.

NOW is the time to buy a 1938 Automatic Refrigerator!

New up-to-the-minute features save time and work in the kitchen!

● Automatic tray release ends prying and tugging . . . The automatic cube-release ends wasteful melting under the faucet—releases two cubes or the whole trayful . . . Adjustable interiors give more storage space . . . Sliding shelves—Hydrators—and

many other improved features make kitchen work easier.

You'll thrill to the streamlined beauty of the new models, with gleaming porcelain finishes and bright metal trims that help make your kitchen a joyous place in which to work.

See them today! Ask us to show you why it pays to own a new 1938 refrigerator.

Busy Month For Morning Star

That the Morning Star Mission in Joliet has had a busy month during March is shown by the following report made by Supt. Peter McCarthy:

Conversions 40; free meals 1547; free beds 608; free clothing to 107; police court and jail visits 26; relief to 18 families; paid bus fare and railroad fares for 10 persons.

The following persons were given aid to get home: John R. Sanders, aged 73 one arm and one leg off, sent to his home. Henry Hatfield, 98 years old given assistance. He is the oldest man the Mission ever had. John Curran, Dan Avery and Frank Ferry, ex-service men, sent to Milwaukee, Wis. Mildred Dugen, runaway girl sent to Akron, Ohio. Harold Thomas, to Ottawa, Ill. Al McMillian and Miss Goodheart to bert Drake to Hinsdale, Ill., James Indiana.

The road to daily happiness, Is not difficult to find; It's what you do for others, That brings content of mind.

Spiritual "Illiterates" Breeding Ground For Radicalism

Stronger spiritual support and a devoted membership in the church of Christ are of greater importance to America than elastic treasures and vast expenditures for super-dreadnaughts, Dr. Walter A. Maier asserted Sunday in his coast to coast Lutheran Hour broadcast.

"Millions of Americans, indifferent to the message of the Cross, must be reached not only thru the ministers and church workers," Dr. Maier added, "but thru an enlarged and intensified missionary zeal on the part of individual Christians working day and night for the evangelization of the nation."

Unless adult America gives its younger generation a better example of church attendance and reverence for the Scriptures, according to Dr. Maier, we will develop a generation of "spiritual illiterates in whose ignorance of God will exist a fertile ground for radicalism and revolution."

Appealing for an inner realization of the meaning of the Cross, Dr. Maier said: "The Cross, as no other symbol we know, calls for repentance, the disavowal of self-righteousness, the humbling of pride; and with it an unswerving faith in the eternal mercy of Christ. His atonement at Calvary today still offers, in undiminished power, the full, free and final salvation for time and eternity to all men regardless of class or color."

Habits of Chiggers
Chiggers do not actually burrow into the skin. They attach themselves to the skin and suck blood. Although of minute size, the chigger can inject a large quantity of poisonous material into its host and this causes the persistent itching.

Canton Island
Canton Island is the chief spot of land among the tiny dots which make up the Phoenix group, 2,700 miles north of New Zealand. The importance of this archipelago, which lies just south of the equator, is readily seen on any map of the South Pacific. The Phoenix group lies almost on a line between New Zealand and Honolulu, practically half way between the two. Canton Island covers about eight and a half square miles, nourishes shrub vegetation and provides a salt-water lagoon navigable to boats which draw up to 5 feet.

Augustana College In Ninth Concert

Returning from an extensive tour which included Carnegie Hall, New York, Symphony Hall, Boston, and fourteen other music centers, the Augustana College Choir of Rock Island will appear in its 9th annual Orchestra Hall concert April 25. Over 50 choirs and organizations in the vicinity of Chicago, including several on the North Shore, are sponsoring the event this year. This world famous choral group just completed making several recordings for RCA-Victor and also went on the air with an international broadcast, which was carried in Europe, as well as over NBC.

Henry Veld, conductor, has been acclaimed for his attainments in forging out of a student body of less than 1200, a seventy voice choir that has been called the finest choral organization, amateur or professional, in America.

Included in the program is "Rarely Comest Thou" by Noble Cain. Concerning this selection, Russell MacLaughlin, critic of the Detroit News says: "... it has 12 parts, all the way through, and at one point splits into the singular total of 14. It has the distinction of being rejected by the leading choral bodies in America, not because it is not a work of unusual power and imagination, but because it is 'impossible to sing'. It would surprise you to learn what bodies have refused it on this account. The Augustana College Choir prepared and perfected it and it is now the feature of the program. So one contends that a group of 'youngsters' giving tongue to a work which its neighbors dare not even try, is the 'most' anything you please."

The Orchestra Hall concert of this organization has been called by Chicago critics one of the high points of the Chicago musical season. Tickets for individuals or for school groups may be obtained by calling State 6726, Chicago, or at the Orchestra Hall box office.

IT PAYS

Just 234 years ago this month, America witnessed the publication of its first permanent newspaper, the Boston "News Letter."

But the birth of this famed fledgling on April 24, 1704, is memorable not only as a worthy landmark in the history of American journalism. It is also memorable because the "News Letter's" now ancient pages contained the first advertisements America had seen, and because these advertisements held revolutionary implications. They contained the seeds of the mass production of goods, lower costs and an increasing ly higher living standard.

Without advertising, your family car would possibly cost \$3,000, your washing machine \$400, a tube of toothpaste \$1.00.

We mention these things, and we hope you will excuse the editor for taking this opportunity to talk a bit of shop, because in looking at this newspaper's advertisements today, you may say of some item, "Looks like a bargain all right, but how much is this ad costing me?"

In answer to this, Paul S. Willis, an authority on advertising costs, recently disclosed the precise truth of the matter. On a nationally advertised brand of soup, you pay 35 one thousands of a cent per can, for advertising, on a similarly advertised soft drink, 1,576/100,000th on each five cent bottle. On all other popular items the costs are just as microscopic.

But as every wise businessman knows, FIRST you've got to tell the world what you have to offer. It merchants hide their light under a bushel, as the saying goes, the consumer cannot be expected to see the light, or their bargains. Far-sighted merchants knew that when they placed ads in the Boston "News Letter" 234 years ago. And their principle remains constant, "It pays to advertise!"

Colored Men in Arlington Cemetery
Many negroes are buried in Arlington cemetery. Two or three sections of the cemetery have been assigned for the burial of colored soldiers.

Constipated?
"For 30 years I had constipation, awful gas bloating, headaches and back pains. Adlerika helped right away. Now, I eat sausage, bananas, pie, anything I want. Never felt better." Mrs. Mabel Schott.

NEW LENOX

Dolores Walsh

Jay Walsh returned home Tuesday from Lakin and Wyoming, Illinois, where he has been working the past week in a sleet storm with the Public Service Co.

Mrs. Mae Corp of Chicago is here visiting a few days in the Henry Miller home.

As the result of an accident while lighting a stove, Edward Janos suffered a severely burned hand.

Mr. Antone Tauber who has been seriously ill at his home is able to be out again.

Mrs. Roscoe Ridgeway was hostess to the afternoon pinocle club at her home Thursday. Prizes went to Mrs. A. W. Walsh, Mrs. Hazel Seivert and Mrs. Agnes Tauber. Mrs. Walsh also received the traveling prize. In two weeks Mrs. Charles Reeser will entertain the group.

Frank Trieme was re-elected school director of the Schmuhl school, district 121, with no opposition. Other directors of the district are: Mrs. J. C. Brisbane and George Woodcock.

Wilbur Rapson sustained a fractured knee while at work recently.

Mrs. Archie Corp and Mrs. Wm. Ellis are conducting a special Easter offering service at 2:00 o'clock Friday afternoon at the church.

The Ladies' Aid Society of the M. E. church sent a case of eggs to the old Ladies' home in Chicago for Easter.

The special meeting of the Ladies' Aides of the Joliet group will be held in the Ottawa Street M. E. church on Wednesday, April 20.

Mr. and Mrs. Otto Bormet and daughter Leona Joy attended the christening of the infant daughter of Mr. and Mrs. John D. Bettenhausen held last Thursday in their home in Mokena. Mr. Bormet was one of the sponsors.

Dewey Moore was re-elected president of the board of education of the New Lenox grade school with 195 votes. His opposition, Rolland Cagin and John Conover, receiving 99 and 1 vote respectively. Herbert Senning and George Bethel were elected members of the board of education with 236 and 179 votes respectively. Harvey Frick received 122, Andrew Demask 34.

The Royal Neighbors met last Wednesday at their regular meeting at the Grange hall.

The All-School Program and Operetta sponsored by the New Lenox Grade School Tuesday night was very well attended.

The free band concert held Sunday afternoon at the school was well attended.

Thursday evening at the M. E. church Rev. Wm. Ellis will present Stereopticon views on the "Life of Christ."

The New Lenox Band Association met for a short meeting Sunday afternoon following the Band concert to discuss buying new instruments for the band. There are 45 band members now.

Mr. and Mrs. Raymond Brown entertained the Pirates Pinocle club in their home last Thursday night. Prizes were awarded to Sydney Batson, Mrs. Alfred Emiley and Edward Mangun. A traveling prize also went to Sydney Batson. Mr. and Mrs. Batson were guests of the club.

The M. E. Ladies Aid met in the Doig-Papke home Wednesday afternoon. The president Mrs. Edw. Sievert presided. Devotional were led by Mrs. Frank Alexander. A sacred song service was conducted with Mrs. Archie Corp at the piano. Plans were made for a social tea to be held at the home of Mrs. Roy DeVore in Chicago on April 29. Reorganization of the Woman's Missionary Society took place at this meeting. Mrs. Frank Spath was elected President and it was voted to hold union meetings of the Aid and missionary society for a few months.

Refreshments were served by the hostesses assisted by Mrs. Frank Spath and Mrs. Will Fitzer. Hostesses for the next meeting will be Mrs. Arvid Swanson and Mrs. Hubert Ewing. Mrs. Mary Bentley and Mrs. J. C. Brisbane.

Mrs. A. W. Walsh and daughter Beatrice spent Tuesday with Mrs. Emma Weber in Lockport.

Mr. and Mrs. Otto Bormet and daughter Leona Joy attended Confirmation services in Tinley Park Sunday when Norman Bettenhausen was confirmed.

Dr. Jeanette Holt is in charge of collecting suitable used wearing apparel which will be sent to the Good Will Industries in Chicago. Anyone having anything in this line should get in touch with Dr. Holt.

Special Good Friday services will be held in the M. E. church tonight with the District Superintendent Rev. Ralph Pierce in charge. Holy Communion will follow the service.

MOKENA

The M. E. Ladies Aid will hold their Easter bakery sale on Saturday, April 16 commencing at 2 o'clock in the O. E. McGovney real estate office.

The infant daughter of Mr. and Mrs. John G. Bettenhausen was christened in their home last Thursday afternoon. The name given was Jean Audrey. The sponsors were, Mr. Otto Bormet of New Lenox and Mrs. Emil T. Bettenhausen of Tinley Park.

Mrs. John Wannemacher is very ill in her home.

Measles have become quite numerous in Mokena. several homes are quarantined for same.

Mr. Julius Grothendick who has been in a soldiers home in Milwaukee since last fall returned to his home in Mokena to vote.

Beginning with Good Friday, the students from this section attending Joliet high school, will have a ten day spring vacation.

The regular meeting of Mokena Band-Parents was held Tuesday eve in the school. Plans were made for the Second Annual Concert to be held Friday evening, May 6th at 8:00 p. m. The director, Howard Strom, told how much the band has progressed and assured a musical treat for all who attended. There will be a beautiful door prize, valued at not less than \$5.00. Home made candy will be on sale also.

With the concert plans taken care of, President Ira Gardner then appointed the following to work on the July 4th Celebration committees: Finance, I. D. Marti and Everett Cooper; Publicity, Mrs. Geo. Renke and Geo. Stermer; Music and dance, Walter Olson and Laurence Kohl; Concessions, Aug. Braun and Paul Roesner; Entertainment, Henry Shevlin and Fred Brown; Traffic and grounds, Fred Hentsch and Karl Krapp.

Mrs. Bert Spiess who has been ill is much improved and able to be about again.

Chas. Smith is spending the week end and Easter with his mother and sister and family in the latter's home in Oak Park.

CARD OF THANKS

We desire to thank our neighbors, friends and relatives for their expressions of kindness extended to us in the illness and death of our mother; to those who sent flowers, donated the use of their autos and to Rev. Geffert for his comforting words.

CHILDREN OF MRS. NANCY WANNEMACHER.

PALOS PARK

The people of Palos wish a speedy recovery to Lois Firalyo and Jack Yunker who are ill in their homes with pneumonia.

Christine Hillig entertained members of the Palos Juniors in her home last Monday evening. Plans were discussed for a carnival which will be given soon and Jane Muhlhausen was voted on as a member.

The Palos Boy Scouts recently had their investiture service which was in the form of a candle light ceremony. At this time nine boys were invested. Mr. Gustav Johanson is the scout master. The assistant scout masters are Alan Boner and Fred Stockdale. The troop committee has Mr. Carl Brick as chairman. The committee includes Mr. Richard Conde, Lester Mahaffay, Richard Krix and Carl Brick.

There will be a scout meeting in the Palos Park Community church Friday evening. All boys 12 years of age are invited to attend.

Miss Bessie Meyer after being thrown from her horse and fracturing her skull in a bridle path at 124th St., and Kean Ave., was rushed to the Little Company of Mary hospital where she died a few hours later. Miss Meyer lived in Chicago.

Carpenters are busy remodeling and painting Arthur Kotrba's grocery store. There are many improvements.

To all bewildered people who were wondering where Leroy Stockdale and James Van De Burg were with the snow plow last Friday afternoon and Saturday morning, during the snow storm, I wish to inform you that they were marooned on 143rd street near Orland Park in a snow drift. They arrived home Saturday morning after spending the night at a nearby farm house.

Tears for Funerals

Centuries ago in many lands, particularly Persia, the mourning of the death of a great man was often enhanced by having his horses, as well as his family and friends, shed tears during the funeral procession. The trick was accomplished, says Collier's Weekly, by placing mustard seed in the nostrils of the animals.

The Standard Ford V-8, with 60-horsepower engine, gives you a lot of car for a little money. 300,000 new owners acclaimed the "thrifty 60" last year. Hundreds a day are buying it in 1938. Why? Because it is priced low—includes essential equipment without extra charge—and goes farther between filling stations than any Ford car ever built. Owners all over the country report averages of 22 to 27 miles on a single gallon of gasoline. But economy isn't all the story by any means. The Standard "60" is built with the same precision as the De Luxe "85," and has the same 112-inch wheelbase chassis. It is easy to look at and ride in—as well as easy to buy and run. There's a Ford dealer near you.

SYNOPSIS

Sarah Lynn Dana, youngest of the Dana women of Danavale, Calif., chafes at the well-ordered life approved by her mother, Adelaide, who is trying to marry her to Duncan Van Doren, Detroit society youth. Great-Granny Dana, covered-wagon pioneer, and community matriarch, recognizes in the girl the restless adventurousness of the "dark Danas," a trait shared by her and Cousin Sally Ann Dana, traveler and author, and pleads with Sally Ann to take the girl abroad. Uncle Lynn, wheelchair invalid, adds his plea to Sally Ann to save Sarah Lynn, as does the girl's young brother, Bill.

CHAPTER II—Continued

"The bad penny turning up, eh?" the old governess said, rather out of breath. "As the saying is, but really just—still here."

"Where you belong as an integral part of Danavale," Sally Ann said cordially. "So nice of you to run in, but I'm afraid I must plunge into my tub—I'm frightfully late."

"I won't keep you, Miss Dana. It's just this: if you could possibly see your way to taking my child back with you? Sarah Lynn, I mean. She's not happy here, and she's not understood, and she might be so—so splendid!" Her close-clipped words came in a rush.

The traveler was pulling her dress over her head. "We'll talk of this again, Penny, dear. I'm afraid it isn't possible, but we'll discuss it fully. But now I must really—"

"Yes, of course," the Englishwoman said meekly, "and do please forgive my intrusion, but it's so terribly important!" She went away at her short-geared trot.

Sally Ann went irritably into her ablutions. Great-granny, Lynn, young Bill, old Penny, all importuning her on her first afternoon! But not all four nor four-and-twenty could saddle her with unwanted responsibilities. She was to laugh at herself before she slept in the wide, old-fashioned double-bed, realizing she had offered to take Sarah Lynn abroad, not to please the four who wanted it, but to annoy the one who did not.

CHAPTER III

Sally Ann had forgotten how her beautiful Cousin Adelaide—Mrs. Ewina Dana—always annoyed her with her buoyant sweetness when she was in command, her air of counting ten before she spoke whenever she was opposed.

Seated at the far end of the dinner table she looked like a well-ordered Wagnerian soprano—her heroic size, her pearly fairness, her truly noble brow.

"I'm going to like this enormously," Sally Ann told herself. "After all, it's bone of my bone!" She awaited the arrival of the fourth generation with lively interest. "What are they like?" she asked Ed Dana. "I've been away so long. Does flaming youth still flame?"

He chuckled. "They go off like a string of firecrackers. But you take 'em by and large, they're a fine bunch of youngsters. I claim I've got four of the finest sons."

"And what about your girl?"

His cheerful face clouded a trifle. "Yes, of course, Sarah Lynn. Oh, Sarah Lynn, all right. She's got some notions, but she'll come out okeh. She—she's sort of like you, at her age, Sally Ann, if you know what I mean."

"And what sort of girl did Keaton marry? I passed their mad house today. It looks like an out-size thermos bottle."

"More like a hip-flask," he said grimly. "That's Ardine's number. Takes her drinking pretty seriously. She was married before, you know, to one of the San Matea Suttens, and Keaton got her divorce for her. It was pretty lurid."

"That must have fluttered the doves of Danavale."

"Well, the older women resent her, naturally. She's just too darn modern for Danavale, that's all, from her house to her boy-friends. But that's up to Keaton. Oh, I guess there isn't any real harm in Ardine; just what we used to call smart aleck! For example, she's gone into business."

"Ah? That's commendable, I'd say."

He chuckled again. "Would you? It's partnership in a restaurant and dancing-place towards the hills—a roadhouse, really—run by a couple of her best friends. Very snappy and artistic—rifty, they tell me, and they call it 'The Stewed Prune.' Well, I guess it's well named."

Aunt Helena was rising, portly in purple draperies, flushed with her excellent fare. "Shall we go into the living-room for our coffee? I expect the young people are arriving."

Sarah Lynn came in with Duncan Van Doren and the Keaton Danas. She wore an unimportant dress which did nothing for her dark slenderness and she managed, even in the surging roomful, to look lost and lonely. The youth from Detroit had an air of languid intelligence and pallid good-breeding, and Keaton

Dana was a solid young man with a heavily placid face. Ardine La Mont Dana made her leisurely way toward the guest of honor in a shimmering gleam. Hers was a vehement, insistent beauty, a ripe loveliness; over-ripe, Sally Ann thought acidly, instant in dislike.

"Wonderful to meet you at last," Ardine drawled negligently, appraising her from under the heavy white lids of her long eyes. "Imagine—two Big Shots at Danavale in one night! You—and Gunnar Thorwald."

"Gunnar—not the young Norwegian flier?"

"In person. Jim Allison's bringing him. You must meet him. But he won't take you for a ride. He never flies women."

"I can, perhaps, succeed in bearing it. I've had rather more than my share of the air."

"You must come and see my house."

"I passed it today. Do you get in and out with a can-opener?"

"I have a zipper down the front."

She nodded, indulgent, patronizing. "I'll be seeing you." She made a slow progress through the crowded room and Adelaide Dana took her place beside the traveler.

The eyes of both women were on Sarah Lynn and her suitor, and they saw Duncan Van Doren take the thin young elbow into a proprietary

"Drink it down, baby, before some comedian pollutes it."

grasp, and the girl jerk it away. After an instant the youth came to them, smiling.

"Mind if we go dancing?" he addressed himself confidently to Adelaide.

"Of course not, dear boy," she beamed approval on him.

"May be a bit late, you know, if we look in at the silly Stewed Prune," he told her conscientiously.

"I shan't worry, Duncan. I know Sarah Lynn is safe with you wherever—and whenever—you take her. Tell her Mother says to run along and have a happy time."

"Thanks a lot." He made his way through the long room, full to overflowing now with family and friends and Chinese servants with trays of coffee and ices and little frosted cakes.

Sudden rage rose and throve within Sally Ann. She was motivated not so much by the desire to rescue the thin dark girl who was a flash-back to her own youth as the urge to defeat the beautiful blonde mother.

"I've taken rather a fancy to your child, Cousin Adelaide," she heard herself saying. "I think I'll take her back to Europe with me if you don't mind."

"But I mind—I should mind very much indeed," Mrs. Edwin Lynn Dana said quickly. "It's very sweet of you, dear Cousin Sally Ann, but I happen to have other plans for my girlie."

"I have an idea," the traveler said casually, "that you'll not have much luck in imposing your plans on that dark daughter of yours."

Sally Ann looked across the room. Duncan Van Doren had turned away to speak to someone else and Sarah Lynn stood alone. She was staring at a newcomer, utterly absorbed and free from self-consciousness, eyes wide, lips parted, startled color in her cool cheeks.

The stranger was a tall, fair youth in the clothing of a flier. He pulled off his cap and his hair was yellow above a lean and spare young face, and something in his costume, perhaps, contrasted with conventional raiment as he was framed in the open door, in the level aloofness of his scrutiny, gave him an effect of alienism.

"Who is that?" Mrs. Edwin Lynn Dana demanded, displeased. "To come here in those clothes—"

"He's merely alighting on earth for an hour, I dare say," Sally Ann supplied. "Gunnar Thorwald, who's

just flown the Atlantic. I've seen him on the other side, 'the Norwegian Lindy,' they call him. Europe's most beamish boy of the air."

CHAPTER IV

"Like to drive around awhile?" Duncan Van Doren wanted to know, closing the door of his glistening roadster on Sarah Lynn and getting into the driver's seat.

"I'd rather drive around until it's time to go home," she said tonelessly. "You know how I loathe the Stewed Prune."

"Promised Ardine we'd barge in for a while at least. And it won't be 'time to go home' until I'm ready to take you." He slid an arm behind her stiffened shoulders. "Your mater said 'anywhere, anywhere!' It wouldn't bore you so if you'd enter into things, Sarah Lynn," he complained. "If you'd just take a couple of drinks you'd be surprised at the difference it would make."

"I don't like it."

"Well, I'm not so crazy about the stuff myself, but I've learned how it oils a party," he said reasonably. Ardine and her cohorts had made the Stewed Prune deliberately demure with bright-figured chintz and ruffled curtains of dotted Swiss and old-fashioned furniture.

Sarah Lynn and Duncan arrived at eleven. Tables were set close to the walls and the floor cleared for dancing, and musicians set wilding, throbbing blues and torchsongs through the warm, smoke-laden air. "Step?" Duncan held out languid arms.

"No, please," the girl shook her head. A hand reached out and pulled her down into a vacant chair. "Want to visit me, Sarah Lynn?"

"Oh, yes, Mary!" she answered gladly.

Mary Dana Webster was a comfortably plump and plain young matron with twin sons and a baby daughter. Sarah Lynn had never seen her there before.

"Think this wicked roof will fall on my righteousness?" She caught her cousin's thought. "Neddy has a precious customer up from the South who craves night-life and I'm here to pour them into the car and roll them home. Duncan, you run along and dance with Ardine. I never see Sarah Lynn. Ginger-ale? Well, Cousin Sally Ann's a peach, isn't she? You look like her, Sarah Lynn."

Mrs. Webster looked about her with keen, amused eyes. She wore no make-up and her hearty daytime color was a little dingy by night. "What a madhouse! And how they toil at being devilish! Will you look at my Neddy? Bicarbonate of soda and bed at eight o'clock for the next week. He's dying on the vine right now, but the customer's fresh as a birdie." Duncan Van Doren danced by with Ardine. "There's something in the air, tonight. I feel it."

"Oh, it's always like this—or sillier," Sarah Lynn sighed.

"No, but Ardine and her henchmen have been going into huddles and shrieking with glee, and Doc Reedley has just gone zooming into San Jose for something. You know, I think they're framing something on that nice young flier—Gunnar what's-his-name?"

"Gunnar Thorwald," the girl said quickly. "Haven't you been reading about him?"

"Well, Jim Allison has him in tow here in the West; been flying with him, and that means that Ardine's had first call on him socially, but I understand he can't see her with a binocular."

Sarah Lynn lifted one thin shoulder. "Naturally but is she poisonous? Her first failure in a big way. You see, she tried to break his rule never to fly women, and didn't even

dent it, so there'll be reprisals. She claims he's coming here tonight. Can you feature that?"

"He's in Jim Allison's hands," her young cousin defended him.

Duncan Van Doren and Ardine danced past their table, swung about, and stopped beside them.

"Hello, darling!" the hostess greeted Mary Webster. "Nice to see you here! But—why aren't you drinking?"

"Why aren't you eating?" the connection by marriage countered.

"Let's dance!" Duncan pulled Sarah Lynn to her feet. They danced slowly with the other slow-moving couples and in silence. As they passed a side door they saw Ardine greeting Doc Reedley, a convivial young man with a side-line of medical studies.

"Well?" she demanded quickly. "You know me," he boasted.

"Darling! In ten minutes—in the office."

Sarah Lynn wanted to return to Mary Webster but her suitor steered her to a large and noisy group and sulked when she wouldn't drink.

Ardine championed her. "Let her alone! She's going to have her ginger-ale or malted milk or cambric tea or anything else she wants. But that doesn't cramp your style." She poured him a lavish highball.

"All right, but wait—I want a sandwich first. I have my sys—"

The chateleine of the Stewed Prune laid a glowing cheek against his. "Cousin Adelaide's been asleep for hours. Just break down and be yourself, darling. The Girl Reserve can always drive you home."

She nodded to Sarah Lynn. "I'll get your lil' ol' drink myself, baby!"

She went away and returned with a cold-beaded bottle of ginger-ale and a tall glass of deep amber, and opened and poured it out herself for Sarah Lynn. A noisy youth leaned over with a flask, but she fended him off. "Behave, Benjy!" She put a protective arm about the girl's thin shoulders. "Drink it down, baby, before some comedian pollutes it."

Sarah Lynn obeyed, grateful for the long, cool, stinging drink which seemed for an instant to freshen the stale air.

Sarah Lynn watched Duncan with apprehension. If he gave over his usual caution he would insist on staying late, and she was so tired and so bored. She tried to march her mind away from the immediate scene and think of her traveling Cousin Sally Ann, of the tall young Norseman who had stood framed in Aunt Helena's doorway. Why—if he was what he looked to be—did he run about with Jim Allison? But Jim was a brilliant flier who had met him abroad; Gunnar Thorwald could not know that Ardine and the Stewed Prune went with him. She hoped he wouldn't come here tonight. She didn't want them making game of him, and if Mary Webster was right and they were planning to make him the object of one of their high-keyed, hectic, ribald jokes—she would warn him.

Mary Webster took Sarah Lynn back to her table. "It'll soon be the last round-up for old Neddy. Shan't we drive you home?"

"Oh, thanks, I'd love it, but Duncan—Mother'd be annoyed if—"

she was interrupted by a ringing yawn. "Oh, excuse me, please!"

"Poor lamb dead for sleep, aren't you?"

She sat down. "Perhaps another ginger-ale would wake me up," she said dully.

"It will, darling! I'll get it," Ardine had followed them.

Ned Webster, a large and very solid citizen, came up wearily, mopping a heated brow. "Gosh, Mary! He says he isn't leaving till sun-up!"

(TO BE CONTINUED)

World's Troubles Attributed to Diet; Holds Deficiencies Cause Irrationality

Faulty diets are responsible for the world's current troubles, while America's modern, balanced diets are making girls of today more beautiful than young women of former generations, according to Miss Myrtle L. Johnson, director of the school of home economics at Russell Sage college, reports a Troy, N. Y., United Press correspondent.

Miss Johnson also reported that "better and more varied foods" were responsible for modern boys and girls in America being stronger and taller than were their parents at similar ages.

"The average daily menu today contains such a fine quality of nourishment that it is generally recognized that more American girls are prettier than young women of former generations," she said. "Diet generally was never so good in the world's history as it is in America today."

She declared that the children of the next generation may be taller and stronger than their parents, adding:

"For a 'race of giants' we should have to rebuild a large part of our facilities in this country."

In contrast, she pointed out, there can be no doubt that a part of the world's current troubles can be blamed on faulty diets.

"The food technologists can say with certainty," she declared, "that deficient diet makes people act irrationally."

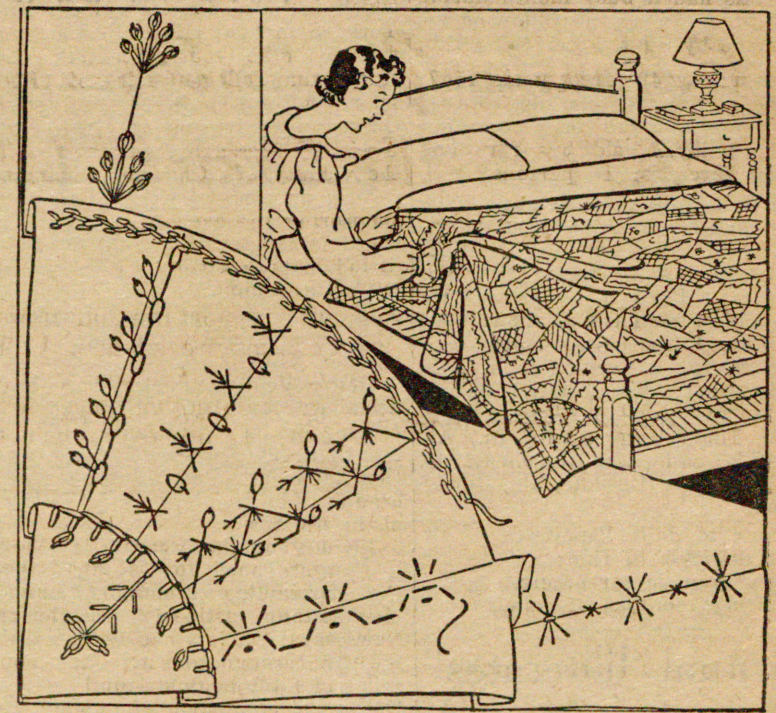

Experiments with white rats in the food laboratory at Russell Sage, she explained, have proved that deficiency in certain vital elements of diet can make the rodents irritable and quarrelsome.

Chinese Widely Spoken

Chinese is the most widely spoken language, and it has been estimated that at least 400,000,000 speak it in its various dialects. English is next, with 200,000,000, followed by Russian, 140,000,000; Hindustani, 100,000,000; German, 80,000,000; French and Spanish, 70,000,000 each; Japanese, 65,000,000; Portuguese, 60,000,000; Italian, 50,000,000; Polish, 16,000,000; Greek, 9,000,000; Serbo-Croatian, 8,000,000, and Bohemian, 7,000,000. Although there are about 5,000 languages spoken in the world, no other language has 7,000,000 speaking it.

HOW to SEW

By RUTH WYETH SPEARS

Silk Patchwork for the Guest Room

A LETTER comes from a reader enclosing rough sketches of stitches from a silk patchwork quilt. She writes, "I inherited this quilt from a great aunt and it is the final touch of luxury in my guest room. It never occurred to me that I could make one like it until I saw your article about patchwork stitches in the paper. I am following your advice about using an old wool blanket as a foundation—only I am using the best parts of several worn blankets. I plan to join the blanket sections with whipped seams and then arrange my final patches along the joinings."

Depend upon a modern homemaker to figure out efficiency methods! And here are the stitches she sends. The many-hued silk, satin, and velvet pieces are first pinned or basted to the foundation with lapped edges turned as shown here. If you would like to know how to make more of the fascinating stitches used to sew the pieces in place, you will find them in the new book offered herewith. Be among the first of your friends to make one of these gay quilts. It is the smart thing to use one anywhere that you would use an afghan. Collecting and arranging the luxurious bits of silk and inventing new embroidery stitch combinations is just about the most ex-

citing of all the new revivals of Victorian home arts.

NOTE: Mrs. Spears' latest book on **SEWING—Gifts and Embroidery**—is now ready. Ninety embroidery stitches are illustrated; also table settings, crochet; embroidery designing; fabric repairing; novelty gifts and dress accessories. Forty-eight pages of step-by-step directions. Available to readers who will send name and address and enclose 25 cents (coin preferred). Just address Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

"I'VE LEARNED PLENTY ABOUT LAXATIVES"

"No one could possibly be troubled with constipation more than I was—until I started to take NR Tablets. They work like a charm. Give thorough relief. You act so gently I hardly know I've taken a laxative."

Says: Mrs. E. M. of Chicago

The reason Nature's Remedy—NR Tablets—acts this amazing way is simple. They are made by an exclusive formula from vegetable laxative ingredients and act on the true basic principle of aiding nature. Give gentle, thorough relief without upsetting the stomach—without griping. Leave your head cleared, refreshed, invigorated. NR Tablets are all vegetable.

Guaranteed to contain no salts, no phenol derivatives. Over 500 million NR Tablets have already brought welcome relief. Get a 25c box from your druggist. Whenever you need a laxative, get NR Tablets and get the sure, gentle, dependable relief millions enjoy.

Foundation of Peace
The true foundation of peace is love for each other.—The Chief Scout.

NERVOUS?

Do you feel so nervous you want to scream? Are you cross and irritable? Do you scold those dearest to you?

If your nerves are on edge, try **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**. It often helps Nature calm quivering nerves. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure.

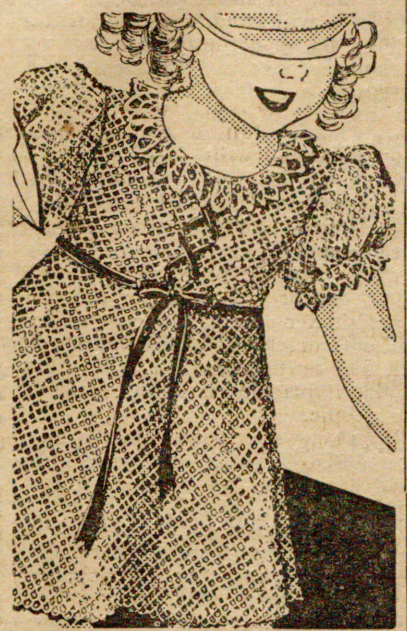

Make a note NOW to get a bottle of world-famous Pinkham's Compound today. **WITCHAMOUNT** from your druggist—more than a million women have written in letters reporting benefit.

Why not try **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**?

Perfection

Trifles make perfection, and perfection is no trifle.

Here's an Easy Dress For You to Crochet

Pattern 1658

A simple mesh with puff stitch dots is quickly and easily crocheted into this charming dress. Use mercerized cotton in fresh Spring colors. Pattern 1658 contains directions for making the dress in sizes 4 to 8 (all given in one pattern); an illustration of it and of all stitches used; material requirements; photograph of detail of stitch.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle, Needlecraft Department, 82 Eighth Ave., New York, N. Y.

HOUSEHOLD QUESTIONS

Refreshing Cakes.—Dry cakes can be made fresh by wrapping them in a damp cloth and placing in a moderately warm oven until the cloth is dry.

Cleaning Sponges.—Sponges which have become slimy should be soaked in vinegar overnight, then rinsed thoroughly in hot water and hung out of doors to dry.

To Remove Gum.—To remove chewing gum from fabrics, rub with ice and the gum will roll off and leave no marks.

When Beating Foods.—Place a folded cloth under the dish which contains foods to be beaten. The cloth saves the table and helps keep the dish steady.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use **Doan's Pills**. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

DOAN'S PILLS

What to Eat and Why

C. Houston Goudiss Discusses WATER--the Elixir of Life

By C. HOUSTON GOUDISS
6 East 39th St., New York.

OF ALL the elements required to support life and maintain health and efficiency, water takes precedence. Without it, the protein, carbohydrates, fats, minerals and vitamins, which build and repair tissues, provide motive power for the body engine, and regulate the complex processes necessary to existence would be utterly useless.

Water is the magic stream through which all nutritive elements are carried into and through the body and there held in suspension. It is the ever-ready messenger which distributes heat, moisture and body-building material, where and as it is needed.

Man Is a Sponge
Our bodies are like water-logged sponges, for we carry water to the limit of our capacity. A human being is more than two-thirds water, and this proportion must be maintained, if health and strength are to be preserved.

There is enough water in a person weighing 150 pounds to fill a 15-gallon barrel. Muscles, liver and kidneys are about 80 per cent water, the brain 85 per cent. Even bone is made up of more than one-third water, so you can see that the old adage "dry as a bone" is not strictly accurate.

No cell can function unless it is constantly bathed in fluid. Furthermore, the cells depend upon water to transport their foods through the blood. This alone requires ten pounds of water in constant circulation.

We may term these functions an incoming service. But it is equally important as an outgoing stream. The cells need water to flush away their waste products. And if the surface of the lungs is not kept moist, there can be no intake of oxygen, no output of carbon dioxide.

Without water, no waste would be carried out of the body. Poisonous substances would remain to wreck the system within a short time. Water flushes the countless channels of physical existence—even while we sleep, for it constantly passes from the body through the lungs and skin, as well as through the bowels and kidneys.

Water Starvation

Where do we get all this water? When we are thirsty, we take a drink and there the interest of most people ends.

Few individuals give proper consideration to supplying the body with all the water it needs. Yet, when the water content of the body diminishes, health and life are in danger. A loss of 10 per cent of body water is a serious matter and a loss of 20 per cent is usually fatal.

It is only in rare instances—such as when lost in a desert—that man actually dies of thirst, for even when no fluids are drunk, water is consumed with food. But all about us we see men and women suffering from the effects of water starvation. Some indications of this are dryness of the skin and lips, mucous membranes

and scalp. There is also danger of damaging the kidneys which require water to flush away the acid products of metabolism. And very often constipation can be traced to a deficiency of water, which is necessary to soften the contents of the intestinal canal.

None of these ill effects may be feared if you take enough water.

How Much Is Enough?

A healthy, normal individual requires about four quarts of water every 24 hours. That requirement varies somewhat with the season. In hot weather there is a greater elimination of water through perspiration and that loss must be replaced.

However, it is not necessary to drink four quarts of water a day. For part of our needs are supplied by food. The body draws upon three sources for its water: First, water taken as a drink or in other liquids; second, water supplied by foods, especially fruits and vegetables, for although solid foods appear dry, most of them are in fact from 75 to 95 per cent water; third, water formed in the tissues in the combustion of fuel foods. Fat gives the most water when burned. In fact, it produces more water than the weight of the original fat. Sugar gives the least.

Foods Rich in Water

A half-pound potato contains nearly a full glass of water. Some other foods that are more than 70 per cent water are asparagus, berries, string beans, cabbage, cauliflower, celery, cucumber, eggs, citrus fruits, cherries, grapes, melons, apples, raw and cooked greens, milk, onions, cooked green peas, boiled potatoes, sauerkraut, shell fish, meat steaks, tomatoes and squash.

Foods containing less than 30 per cent water include butter, cakes, candies, ready-to-eat cereals, crackers, dried fruits, nuts, potato chips, sausage, bacon, syrups and Zwieback.

Avoid the Dry Habit

In addition to the water consumed with food, every normal individual should drink about six glasses of liquid daily—as water, milk, coffee, tea or other beverages.

Most people drink far too little water. Women often have the mistaken notion that water will make them fat. To demonstrate the fallacy of this idea, a world-famous physician once remarked that if that were true, poor people would long ago have adopted the practice.

It is possible to drink too much water and those who are suffering from disease should be guided by their physician in determining the amount required. But most nor-

Have You a Question? Ask C. Houston Goudiss

C. Houston Goudiss has placed at the disposal of readers of this newspaper all the facilities of his famous Experimental Kitchen Laboratory in New York City. He will gladly answer questions concerning foods, diet, nutrition, and their relation to health. You are also invited to consult him in matters of personal hygiene. It's not necessary to write a letter unless you desire, for postcard inquiries will receive the same careful attention. Address C. Houston Goudiss at 6 East 39th Street, New York City.

mal people could increase both mental and physical efficiency by taking more of this magic fluid.

Drink Water with Meals

The question is often asked—"Is it wise to drink water with meals?" The answer is "Yes." There is evidence that the drinking of a reasonable amount of water with meals by normal individuals stimulates the secretion of gastric juice, thereby improving digestion. It has also been demonstrated that it aids in the absorption of food by the body and retards the growth of intestinal bacteria.

The homemaker should be just as conscientious in providing her family with sufficient water as with adequate amounts of the other food substances. For water must be included in the list of essential food constituents. It is in truth, the ELIXIR of LIFE.

Questions Answered

Mrs. A. R. M.—No, milk is not fattening. Women especially fear that milk will increase their weight, but this fear is not justified, since a pint of milk, or two large glasses, only supplies 340 calories.

Miss T. P. G.—Yes, there is a stimulant in cocoa that closely resembles caffeine in coffee. But a cup of cocoa contains less of the stimulant than is found in a cup of tea or coffee.

Mrs. S. T. R.—Answering your question as to what is the most efficient time to begin reducing—the proper time is when the weight first begins to climb above normal. Most people wait until they are 20 or 30 pounds overweight and then reducing becomes more difficult.

C. D. L., Jr.—Pyorrhea seems to be associated with a mild vitamin C deficiency which has gone on over a long period of time. To obtain adequate amounts of vitamin C, you should eat plenty of citrus fruits, tomatoes, strawberries and raw, leafy vegetables, such as cabbage.

Dresses That Flatter Figure

THERE'S no spring tonic in the world like having a pretty new dress that makes you look slim and smart. And these are so easy to make, that you'll enjoy fixing them for yourself. The patterns are carefully planned so that even beginners will have no trouble following them, and each is accom-

panied without nap. With short sleeves.

1456 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 4 3/4 yards of 39-inch material, plus 1 3/4 contrasting.

Spring-Summer Pattern Book. Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately cut and easy to follow. Each pattern includes a sew-chart which enables even a beginner to cut and make her own clothes.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Ask Me Another

A General Quiz

1. Why are the countries south of the United States called Latin America?
2. In political parlance what is "log rolling"?
3. Are there any women in the Texas Rangers?
4. How many men have held the permanent rank of full admiral in the United States navy?
5. Why are low shoes called oxfords?
6. What is the distinction between the secretary of the treasury and United States treasurer?
7. What was the subtitle of "Uncle Tom's Cabin"?

The Answers

1. Because the prevailing language is of Latin origin.
2. It means you vote for my bill and in turn I will vote for yours.
3. Mrs. Frances Haskell Edmondson is a member.
4. Three: David G. Farragut, David Porter and George Dewey.
5. Such footwear was first made and worn at Oxford, England.
6. The secretary of the treasury is head of the department, while the treasurer acts only as the treasurer of the department.
7. The book appeared at a time that double titles were popular. It was named "Uncle Tom's Cabin or Life Among the Lowly."

panied by a detailed sew chart explaining just what to do.

Comfortable House Dress.

It's wonderful how much more one feels like working in a brand new, fresh house dress that's becoming as well as comfortable. This design is distinctly slenderizing because it's so straight and simple. You can make it in a few hours. Cheerful percale print, seersucker or chambray are nice fabrics for this dress, which will certainly be your favorite if you want to look slimmer than you are.

Dress For Afternoon.

If you wear any size between 36 and 52 this dress is designed to make you look your best. Shirring on the shoulders creates the fullness that you need in the blouse. The long, unbroken line from shoulder to hem takes inches off the figure. Sleeves ending just below the elbow are flattering to plump arms, and the long, softly rippling jabot trims are lengthening in effect. Make this lovely dress of silk crepe, small-figured prints, georgette, or voile.

The Patterns.

1382 is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3 3/4 yards of 36-inch ma-

TIPS to Gardeners

More Combinations

CROP combination is useful with vegetables such as tomatoes, melons or corn, as well as with "small garden" crops like radishes, lettuce and carrots which require comparatively less space. The following combinations are suggested by Harold Coulter, vegetable expert of the Ferry Seed Institute:

Sow dwarf peas early in rows four to six feet apart; plant radish between rows of peas, and plant one row of cucumbers between every two rows of peas.

Set cauliflower early in rows two feet apart; one foot on each side of each cauliflower row plant spinach; sow radishes between spinach rows. When radishes are used set tomato plants in the space thus vacated. Peppers or egg plant may be substituted for tomatoes.

Sow early turnips in rows three to four feet apart; later plant a row of corn between the turnip rows.

Give ground ample supplies of fertilizer when combined cropping is practised extensively.

One After Another

"Oh, what a time we had! I just don't know how I ever came through! First I got an angina pectoris, and then pneumonia, followed by arterio sclerosis and phthisis, after which they gave me hypodermics. Then I had barely recovered from these when I got tuberculosis, with appendicitis, followed by tonsillotomy. Yes, indeed, it was the hardest spelling test I've ever had."—Pathfinder Magazine.

Aisle of Woman's Dreams

That, in effect, is what advertisements in this paper can do for you. They bring all the needs of your daily life into review... in one convenient place. Shop from your easy-chair, with the advertisements. Keep abreast of bargains, instead of chasing them. Spend time in your newspaper to save time—and money—in the stores.

Uncle Phil Says:

Nature Is Kind

It is said that eating dulls the sense of hearing temporarily. Nature's antidote to after-dinner oratory?

If we could see ourselves as others see us, the world would be made up of many more pessimists.

A day's desk work and you may lie awake all night; a day at the plow and you never do.

The worm will turn, but only to take flight in a new direction.

A Crying Need

We may not be our brother's keeper, but when we read the newspapers it does seem as if he needed one.

Every man looks back on his past week and notes something he spent money on that he should not. That's his American-bred conscientiousness.

A cat, who has a varied vocalization of her own, doesn't think much of the canary's.

QUAKER STATE MOTOR OIL
CERTIFIED—GUARANTEED

Suppose you knew that one aisle of one floor in one store had everything you needed to purchase!

Suppose on that aisle you could buy household necessities, smart clothing, thrilling gifts for bride, graduate, voyager! How much walking that would save! How much time, trouble and fretful shopping you would be spared!

Were you ever alone in a strange city?

If you were you know the true value of this newspaper

Alone in a strange city. It is pretty dull. Even the newspapers don't seem to print many of the things that interest you. Headline stories are all right, but there is something lacking. That something is local news.

For—all good newspapers are edited especially for their local readers. News of your friends and neighbors is needed along with that of far off places. That is why a newspaper in a strange city is so uninteresting. And that is why this newspaper is so important to you.

NOW is a good time to get to...

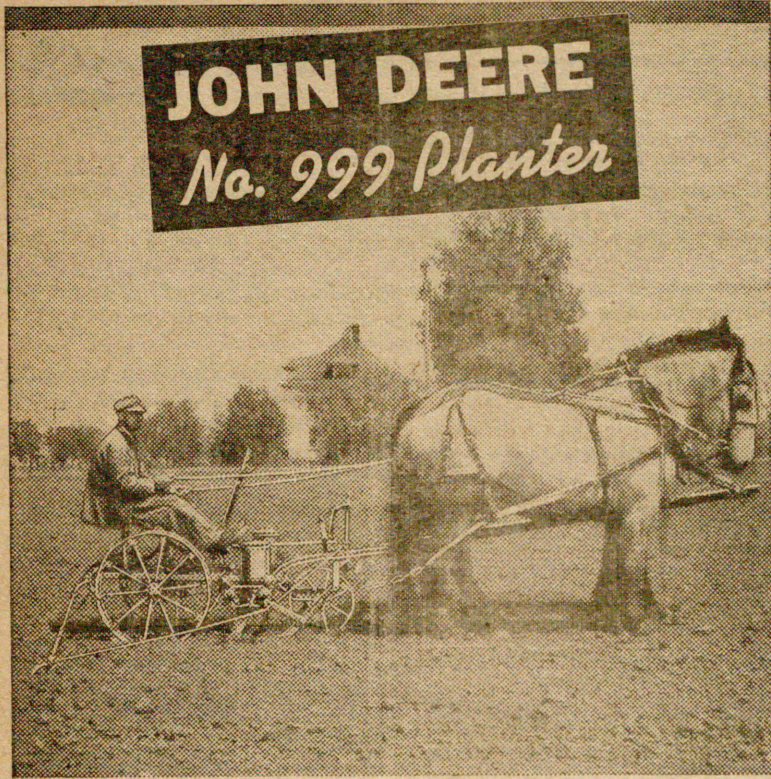

KNOW YOUR NEWSPAPER

WE OFFER A New Food Department

★ All the accumulated knowledge and experience of C. Houston Goudiss, the man who for 30 years has exerted a wide influence on the food habits of this nation, are now available to homemakers through the series of articles now appearing in this newspaper. These discussions are as fascinating as fiction, as up to date as tomorrow, and, above all, authoritative. For no matter what aspect of food is under discussion, C. Houston Goudiss knows whereof he speaks.

★ His work has been a devotion to the study of food, both from the productive and the manufactured standpoint. He believes that better food means a better nation. Sharing these views, we have secured him to assist in carrying out our aims—to be the best available guide in the most important of all matters that affect the homes of the readers of this newspaper—for health, happiness and prosperity depend first of all upon food.

★ Every homemaker will want to clip these articles, and save them. She will find them invaluable aids in keeping her family properly fed.

JOHN DEERE No. 999 Planter

The Choice of the Corn Belt

The John Deere No. 999 has led the field for nearly sixty years. It's the fastest-selling corn planter in the world—unsurpassed for accurate and dependable performance, for its ability to open up a furrow, deposit the right number of kernels per hill, plant them in check, cover them at uniform depth, and press the soil down firmly. Variable drop. Clutch and gears are enclosed and run in a bath of oil, for smooth, quiet, trouble-free performance. Tractor hitch, tongue truck, fertilizer attachment, pea and bean attachment, and a wide variety of seed plates available. Come in and see it.

Women's Club Met April 5th

At the annual meeting of the Third Congressional District, Illinois Federation of Women's Clubs which was held in Gage Park Field House, Chicago, on Tuesday April 5th, the following district officers were elected: Mrs. Thomas Gifford, 9351 Laflin St., past president of the Brainerd Woman's Club, was elected for three years to succeed Mrs. Arthur H. Swett, as district president. Mrs. Gifford during the past year served as vice president of the district and has served in many capacities in club work.

Mrs. B. I. Meyer of the Morgan Park Woman's club was the choice for 2nd vice president and Mrs. H. G. McClung of the Hamilton Park Woman's club was elected as corresponding secretary. Their term is two years.

The I. F. W. C. State Convention will be held in Hotel Sherman in Chicago May 3, 4, and 5.

Wildlife Requires Vegetation
Vegetation is essential for wildlife. No animal can live directly on mineral matter.

The Inns of England

The Inns of England have their foundations in the depths of the Middle Ages. Some of them have seen the almost prehistoric changes from crude earthen floors to stone floors and from stone floors to mats of rushes. They have sheltered kings and pilgrims, merchants and all kinds of travelers, and between the occasions of more spectacular hospitality they have gathered about them all the richness of the social life of the neighborhood, for it is at the inn that men have always met and expanded a personal and political philosophy.

DESPERATE AMBROSE

is doing some deep thinking and trouble clouds loom thick on the horizon. Ambrose is just one of the characters in that humorous and delightful comic strip

S'Matter Pop

If you haven't been introduced to Desperate Ambrose, Old Timer, Willie and Pop Wimpus you've been missing a lot of good, clean American humor. C. M. Payne has found the real underlying humor in home life and brings it to you in this favorite of comic strip readers everywhere.

History in the MAKING

That is what is covered in our *Weekly News Review* feature each week. It is an interpretation of the events of each week that are making the history of the nation and the world. It is prepared by Edward W. Pickard, one of the highly trained newspaper observers of the nation, and syndicated to a limited number of newspapers in the different states. It is the best feature of this character that goes to American readers from any source. You can make it the foundation of your discussion of world events with friends.
